

**Metropolitan Transportation Commission
Notice of Availability**

Interested persons are invited by the Metropolitan Transportation Commission (MTC) to comment on the following draft transportation programming documents:

1) Transportation Improvement Program (TIP) Amendment: MTC is currently developing an amendment to the 2021 TIP to make it consistent with the new regional transportation plan (RTP), *Plan Bay Area 2050*. This amendment will add projects to the 2021 TIP that are non-exempt from regional air quality conformity, and revise the scope, funding and/or scheduling of existing projects in the 2021 TIP. Non-exempt projects include any project that either adds or removes capacity from a roadway or transit system.

2) Draft Transportation-Air Quality Conformity Analysis for Plan Bay Area 2050 and the Amended 2021 TIP:

MTC is preparing a new transportation air quality conformity analysis for *Plan Bay Area 2050* and the Amended 2021 TIP. *Plan Bay Area 2050* is a long-range regional plan that outlines 35 integrated strategies across four key issues—housing, the economy, transportation, and the environment—to make the Bay Area more equitable for all residents and more resilient in the face of unexpected challenges. The proposed Plan’s strategies chart a course to make the Bay Area more affordable, connected, diverse, healthy, and vibrant for all residents, while also achieving regional greenhouse gas emissions reduction targets established by the California Air Resources Board pursuant to the Sustainable Communities and Climate Protection Act of 2008. *Plan Bay Area 2050* serves as the RTP and Sustainable Communities Strategy (SCS) for the nine-county region. MTC and ABAG are required under State and Federal law to prepare an RTP/SCS every four years. The Amended 2021 TIP only includes transportation projects consistent with *Plan Bay Area 2050*. These transportation projects have been presented in the appropriate analysis year using the latest planning assumptions.

Plan Bay Area 2050 and the Amended 2021 TIP, both of which include the financial constraint analyses, and the Draft Transportation-Air Quality Conformity Analysis for *Plan Bay Area 2050* and the Amended 2021 TIP are available for public review starting July 7, 2021. The documents will be posted on the MTC web site at <https://www.planbayarea.org/reports>.

Written comments will be accepted until 5 p.m. on Monday, August 5, 2021, and may be submitted to MTC’s Public Information Office via e-mail to info@bayareametro.gov or via USPS at:
