Agenda Item 3a

## Regional Measure 2 Program Public Hearing

---

**Subject:** Conduct a public hearing to amend the Regional Measure 2 (RM2) Operating program to add \$5 million in annual operating assistance to two new projects: Clipper® and Transbay Transit Center operations.

**Background:** In March 2004, Bay Area voters approved Regional Measure 2 (RM2), a \$1 bridge toll increase on the seven state-owned bridges in the Bay Area. Pursuant to Section 30914(d) of the California Streets and Highways Code, up to 38 percent of RM2 toll revenues are to be made available annually for the purpose of providing operating assistance for transit services.

The current RM2 Operating program consists of 11 transportation projects intended to reduce congestion or make improvements to travel in the toll bridge corridors. The operating projects in good standing and meeting required RM2 performance standards are being funded at appropriate levels as prescribed by the RM2 legislation. For FY 2017-18, the total funding required by the program falls below the 38 percent limit allowed for operating assistance, leaving operating funding available for programming.

MTC is holding a public hearing in advance of consideration of action to program available RM2 operating funding capacity to two new projects that are consistent with the intent of the RM2 legislation. The proposed operating assistance for the two projects totals \$5 million, annually. Further discussion of the projects is below.

### **Project 12: Clipper® Operations**

Staff proposes to program \$2 million annually to support ongoing operation of the Clipper® program. The Clipper® program was a current recipient of RM2 capital funding. As the region moves towards the implementation of the next generation of the Clipper® system, additional operating support is needed in light of projected expenses exceeding projected operating revenue from existing sources, in the near future.

### **Project 13: Transbay Transit Center**

Staff proposes to program \$3 million annually to the Transbay Transit Center to support operations. This amount would be in addition to the long-standing and ongoing operating subsidy BATA provides of \$4.9 million (for FY2017-18), as reflected in item 2h on today's Committee consent calendar. Successful operation of the new center will be an important component in reducing congestion in the bridge corridors by facilitating transbay public transit. The terminal also received significant capital funding from RM2.

Forecasted costs to operate the new terminal, expected to open by early 2018, indicate funding shortfalls in the first four years of operation that

average approximately \$6.5 million per year. After that time, the retail spaces in the terminal are expected to be built out and fully utilized, generating additional lease revenue which can contribute to the center’s operating budget. Before that, however, the Transbay Joint Powers Authority (TJPA) is asking that transit operators using the center provide additional funding to cover the shortfalls. The proposed RM2 operating support would directly offset some of the increased fees to cover the deficit to be paid by transit operators. In particular, the RM2 operating support would benefit AC Transit, which, as the largest tenant of the terminal, is being asked to cover 65 percent of the increased cost. Staff further proposes that after FY2021-22 the RM2 operating support be conditioned on MTC staff’s evaluation of on-going support need. Should alternative operating revenue for the terminal come on line or costs reduce, MTC staff may recommend that this additional increment of RM2 operating support be reduced or eliminated.

The total annual funding requirement for the existing and proposed new RM2 operating projects are not expected to exceed the 38 percent limit of RM2 toll revenue generations that may be set aside for operating projects. In years when toll revenue generations have fallen below the threshold needed to fund all projects in the operating program to their full extent, MTC practice has been to apply a proportionate funding reduction to all projects in the program. Going forward, staff proposes that if the need arises to constrain the operating program to available revenue, the proportional approach be continued.

A public hearing will be conducted at today’s meeting to take comments on the proposed amendment. The comment period opened on May 26, 2017 and will close on June 28, 2017. Any comments received will be provided at the Committee meeting. Staff will return to the Commission in July with a summary of comments received and with recommendations for approval of the proposed program revision. If the proposed revisions are approved, staff would also return to the Commission with appropriate revisions to the FY2017-18 RM2 Operating Program (MTC Resolution No. 4278) to allocate the funds to the two new projects.

**Issues:** None

**Recommendation:** Receive public input

**Attachments:** Attachment A – Public Hearing Notice, including Draft of MTC Resolution No. 3801, Revised

**Metropolitan Transportation Commission  
Notice of Public Hearing**

In March 2004, Bay Area voters approved Regional Measure 2 (RM2), a \$1 bridge toll increase on seven of the state-owned bridges in the Bay Area. In fiscal year 2017-18, the RM2 toll revenue is expected to generate approximately \$130 million in funding for specified capital and operating projects to reduce traffic congestion in the region. Pursuant to Section 30914(d) of the California Streets and Highways Code, up to 38 percent of RM2 toll revenues are to be made available annually for the purpose of providing operating assistance for transit services. The Metropolitan Transportation Commission (MTC) will hold a public hearing in advance of consideration of action to program available RM2 operating funding capacity to new projects.

Currently, RM2 operating projects in good standing with established and required performance standards are being funded at appropriate levels as prescribed by the RM2 legislation. The total annual funding requirement for the existing and proposed new RM2 operating projects will not exceed the 38 percent limit of RM2 toll revenue generations that may be set aside for operating projects. The proposed additions to the operating program total \$5 million annually and are for investments consistent with the intent of RM2.

At its regularly scheduled June 14, 2017 meeting, MTC's Programming and Allocations Committee will hold a public hearing on the proposed additions to the RM2 operating program described in MTC Resolution No. 3801, Revised, and summarized below:

**Project No. 12, Clipper Operating Support**

**Proposed Total RM2 Funding:** \$2.0 million, annually

**Action:** Add project to support ongoing operations of the Clipper transit smart-card program

**Project No. 13, Transbay Transit Center Operating Support**

**Proposed Total RM2 Funding:** \$3.0 million, annually

**Action:** Add project to provide near-term operations support for the Transbay Transit Center. Ongoing funding after fiscal year 2021-22 will be based on MTC staff evaluation of funding needs.

At the regularly scheduled July 12, 2017 Programming and Allocations Committee meeting, MTC staff will report on public comment received, and the committee will refer recommendations to the MTC Commission for final action. The MTC Commission will consider the proposed RM2 fund programming changes at the Commission's July 26, 2017 meeting.

Bay Area residents are invited to comment on the proposed funding and scope changes to RM2 identified above and further described in MTC Resolution 3801, Revised.

The proposed actions are severable from each other; if any project is removed during the course of the hearing process, the remaining projects shall stand.

A public hearing to receive public testimony on these proposed funding changes will be held during MTC's Programming and Allocations Committee meeting on:

**Wednesday, June 14, 2017, at 9:40 a.m.**
