

Amie Fishman, CASA Technical Committee

Executive Director | Non-Profit Housing Association of Northern California (NPH)

Amie Fishman joined NPH as Executive Director in 2015, after more than 20 years in the affordable housing and community development field. At NPH, she has launched a new initiative to grow public support and political will for affordable homes in the Bay Area through ballot measure campaigns. Prior to NPH, she was Executive Director of East Bay Housing Organizations (EBHO) from 2006 to 2014. During her tenure there, she initiated major affordable housing advocacy campaigns with broad-based community coalitions, developed strong membership committees, initiated a resident organizing program, and deepened EBHO’s work throughout Alameda and Contra Costa Counties to advance local and regional policies for affordable housing and sustainable and equitable transit-oriented development.

Ms. Fishman also worked as the Director of Supportive Housing at Mission Housing Development Corporation (MHDC) in San Francisco for 10 years, directing MHDC’s supportive housing programs and community organizing collaborations for homeless and formerly homeless adults and families. She holds a master’s degree in Public Administration, with a focus on public policy analysis related to affordable housing and community development, from the Wagner School of Public Service at NYU.

As the backbone organization for the affordable homes community since 1979, the Non-Profit Housing Association of Northern California creates the environment and generates the essential elements – land, funding, supportive policies, and political will – for developing, preserving, and operating service-enriched affordable homes for low-income individuals and families, seniors, veterans, and people with disabilities.

NPH advocates for solutions at the federal, state, regional, and local levels, runs targeted, focused campaigns, and helps build capacity at member organizations through leadership development opportunities, networking, and training events, as well as through peer-to-peer sharing of best practices.
