The Metropolitan Transportation Commission (MTC) connects the nine-county Bay Area’s communities by allocating regional, state, and federal funds for transportation projects, planning for the future, and coordinating the participation of governments and residents in the planning process.

The Commission’s central purpose is to make sure that the transportation networks that connect the residents and communities within the Bay Area region function smoothly and efficiently. Its job is to plan responsibly to meet the mobility needs of residents, now and in the future.
