# Project Schedule & Touchpoints

# Since the November AG Meeting, we have refined the Short/Near-Term RNM after considering your feedback and identified actions needed to stand up the framework

During the last AG meeting, we presented a preliminary Short/Near-Term RNM Framework along with a concept for how it will evolve over the long term

After considering your feedback, we have refined and/or clarified specific elements of the RNM Framework, which we will present today

Days 0-30 (Nov 9 - Nov 16)	Days 31-60 (Nov 17 - Nov 23)	Days 61-100 (Nov 24 - Jan 10)
<ul style="list-style-type: none"> <li>Develop initial budget, determine funding requirements, and identify funding sources</li> <li>Finalize RNM Charter</li> <li>Establish RNM Director Search Committee</li> <li>Write RNM Director job description / requisition</li> <li>Complete hiring process for RNM Director</li> <li>Identify and acquire RNM office space / IT needs</li> <li>Identify MTC RNM Committee Members</li> <li>Further define and establish the "Voice of the Customer" Advisory Committee</li> </ul>	<ul style="list-style-type: none"> <li>Write job descriptions / requisitions for any immediate Dedicated Support Staff (Days 2-3 staff)</li> <li>Complete hiring process for any immediate Dedicated Support Staff</li> <li>Hold first RNM Council meeting</li> <li>Align on RNM KPIs</li> <li>Sign on immediate action items / priority initiatives for the RNM (e.g. schedule transfers, collective bargaining agreements)</li> <li>Establish any immediate Task Forces or Sub-Committees</li> </ul>	<ul style="list-style-type: none"> <li>Establish KPI reporting process and begin reporting on KPIs</li> <li>Hold first MTC RNM Committee meeting</li> <li>Develop and approve annual RNM budget</li> </ul>

Additionally, we have also identified the actions needed to stand up the Short/Near-Term RNM and have provided some initial ideas for items such as the RNM charter and KPIs which we will also review today

# Refinements to Short/Near- Term RNM

# Key Refinements to the Short/Near-Term RNM Framework

- 1 MTC RNM Committee:** Additional detail added to provide clarification on how MTC will interface with the RNM, which includes the MTC Board, the MTC Executive Director, and a new Committee within MTC (note that this committee structure / approach is typical to how MTC does business)
- 2 “Voice of the Customer” Advisory Committee:** Reporting line moved from RNM Council to MTC, to reflect expectation that the Advisory Committee will present reports to MTC RNM Committee to support informed decision making; additional detailed provided on proposed structure
- 3 Transit Boards:** Transit Boards added to the graphic to help demonstrate the important role that transit boards will play in approving implementation plans proposed by the RNM for individual Operators
- 4 Director of RNM:** Title changed from “Director of RNM Operations” to “Director of RNM” to avoid confusion with the typical use of “operations” (i.e., operating a transit system) (*note: Director of RNM will report to MTC Executive Director; however, level of role with MTC is to be determined*)
- 5 Dedicated Support Staff:** Two additional roles added to support the voice of the customer: (1) Customer Experience and (2) Data Analytics
- 6 RNM Council:** Name changed from “RNM Executive Board” to “RNM Council” to avoid confusion between other executive boards (e.g., Clipper Executive Board, ABAG Executive Board, MTC Executive Committee)
- 7 RNM Council Facilitator:** Facilitator role removed as a facilitator is likely not needed, or could be hired on an as-needed basis
- 8 Long-Term RNM:** Recurring 2-year formal performance review added to help ensure that the RNM continues to evolve over time

# Updated Short / Near-Term RNM

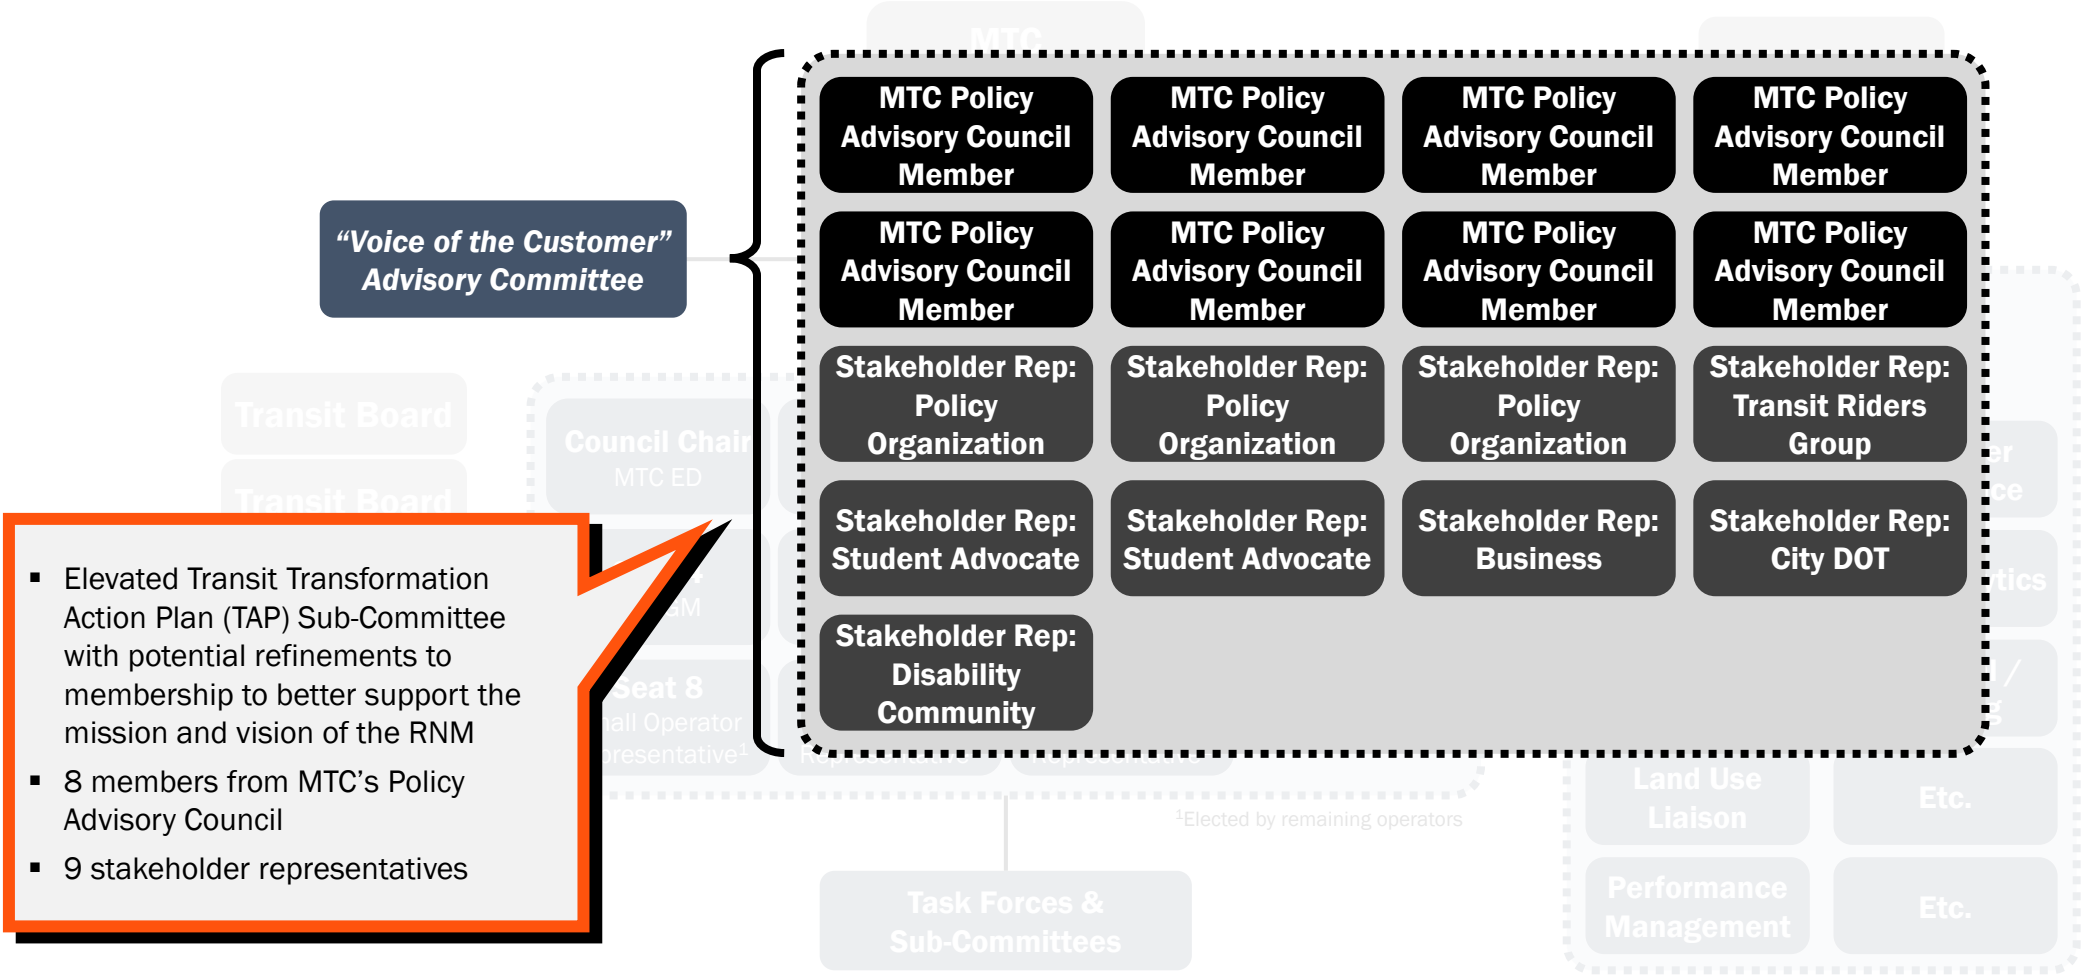

- ✓ **Customer Focused:**
  - Enables highly inclusive decision making to bring a broad range of perspectives
  - Multiple engagement points for the “Voice of the Customer” to prioritize customers in decision making
- ✓ **Structured for Scale:**
  - Task Forces and Sub-Committees can be added or subtracted as additional Functional Areas are added or regional priorities shift
  - Team of Dedicated Support Staff can grow over time to provide needed capacity to Operators
  - Joint teams, with potential opportunities for seconded staff, enable high quality proposals to reach the Council, driving effective use of GM time
- ✓ **Balances Short-Term Momentum with Long-Term Transformation:**
  - Allows RNM to be stood up quickly to begin working on priority items, but also allows continuous evolution
  - Seeks to drive cost and time effectiveness
  - Feasible within current legislative constraints

# MTC RNM Committee

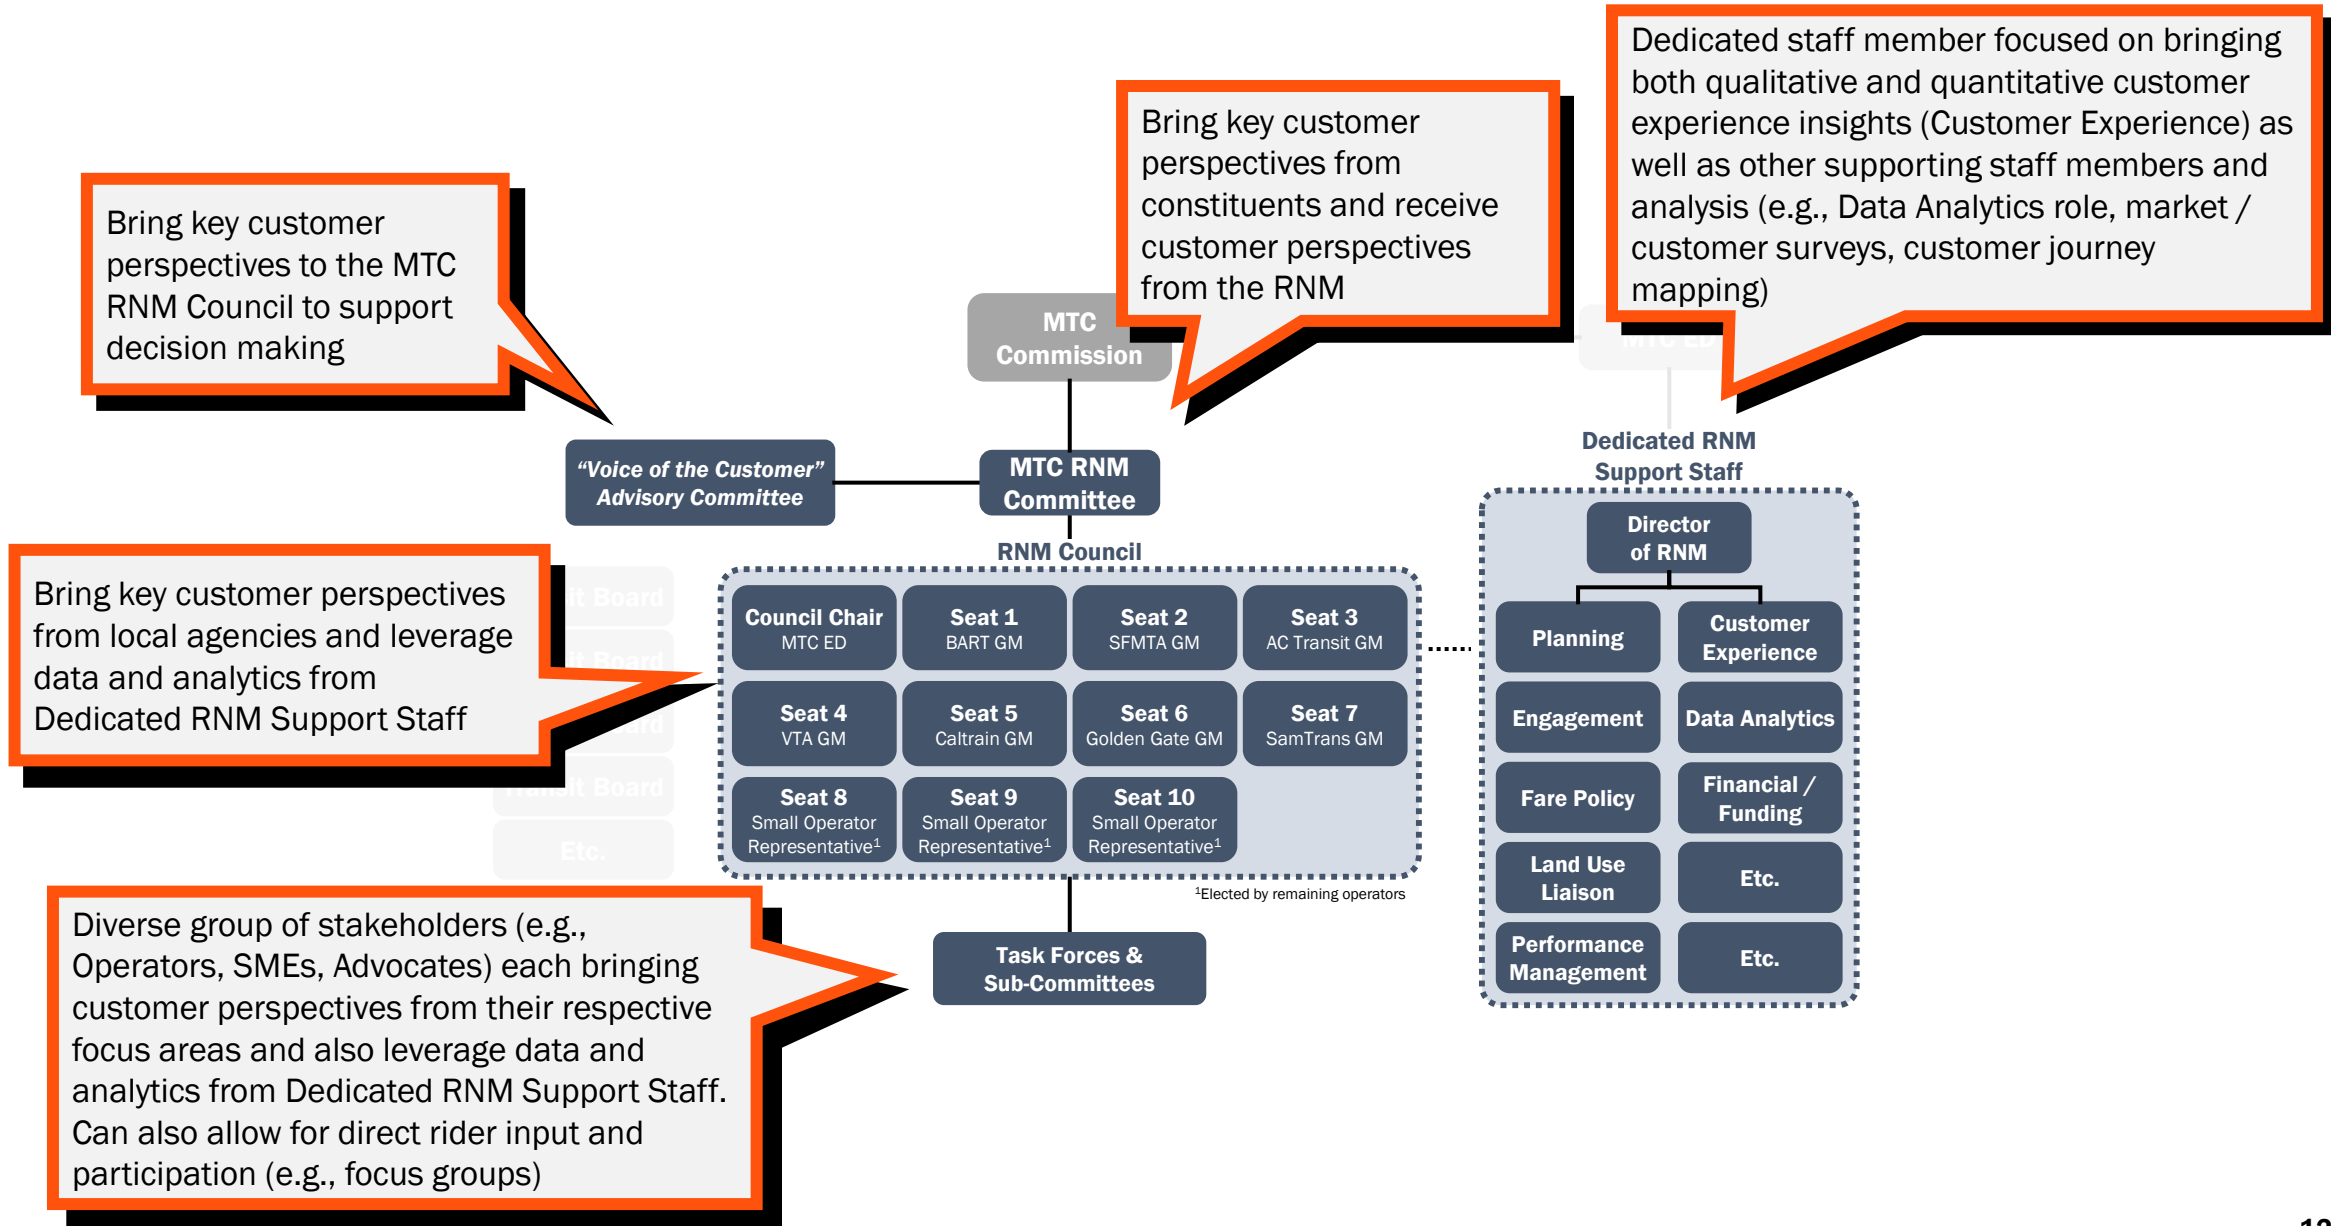

# Voice of the Customer Advisory Committee

- Elevated Transit Transformation Action Plan (TAP) Sub-Committee with potential refinements to membership to better support the mission and vision of the RNM
- 8 members from MTC’s Policy Advisory Council
- 9 stakeholder representatives

# Engagement Points for the Voice of the Customer

# Where the RNM Sits (Short / Near-Term)

**Note:** Director of RNM and Dedicated RNM Support Staff will be MTC employees and therefore have a solid reporting line to MTC (meaning that hiring, performance reviews, etc. will be completed by MTC); however, these roles will have a dotted reporting line to the RNM Council (meaning that the RNM Council will provide more strategic direction for where these roles should prioritize their time)

# **Draft RNM Charter and Evaluation Framework for RNM Evolution**

# Draft Charter for Short/Near-Term RNM (Illustrative)

**Note:** Charter is intended to provide a simple view of the RNM mission, vision, and objectives as well as set clear expectations for operations

## Mission

To drive transformative improvements in the customer experience for regional Bay Area transit

## Vision

To advance regional goals in equity, livability, climate, and resiliency through a unified regional transit system that serves all Bay Area populations

## Roles & Responsibilities

- **MTC/MTC RNM Committee:** Leverage existing regional purview and planning capabilities to help set the regional vision and policies for transit in the Bay Area and drive the direction of the RNM
- **RNM Council:** Council comprised GM-level Operator and MTC representatives who understand transit operations and can represent the interests of their stakeholders, make critical recommendations on regional policies, and provide leadership and implementation of policies
- **“Voice of the Customer” Advisory Committee:** Group of stakeholders who represent the customer and can help inform decision-making with the customer in mind
- **Dedicated RNM Support Staff:** Group of dedicated staff (potential opportunity for seconded staff as well) with a broad range of capabilities and expertise to support the operations and analysis of the RNM
- **Task Forces & Sub-Committees:** Temporary (Task Forces) or longer-term (Sub-Committees) groups comprised a broad range of representatives, including Operators, stakeholders, and subject matter experts, that will help complete analysis and develop policy recommendations / options for topics

# The RNM Framework

The Regional Network Management Framework

Benefits of the RNM Framework

The **mission** (the RNM’s purpose) and **vision** (what the RNM hopes to accomplish) serve as guiding principles for the Functional Areas and Operating Model within the RNM

The **Accountabilities** and **Responsibilities** define what activities within each functional area for which the RNM is responsible (vs. the Operators or MTC)

The **Operating Model** defines *how* the RNM will deliver its Accountabilities and Responsibilities

The **Financial, Time, & Legal Constraints** place boundaries on the Mission, Vision, Functional Areas, and Operating Model for the RNM

# Proposed RNM Mission & Vision Statements

## Proposed Mission Statement

("Core Purpose")

To drive transformative improvements in the customer experience for regional Bay Area transit

## Proposed Vision Statement

("Why")

To advance regional goals in equity, livability, climate, and resiliency through a unified regional transit system that serves all Bay Area populations

# Regionalization for each Functional Area was based on the identified Regionalization Considerations & Categories

Will regionalizing this accountability / responsibility...

## 1 Improve the customer experience

Such as:

- Reduce travel times
- Improve equity
- Simplify the user interface
- Enhance accessibility
- Increase affordability

and  
/ or

## 2 Unlock efficiencies

Such as:

- Enable sharing of costs
- Generate economies of scale
- Reduce time spent on coordination activities
- Reduce duplicative efforts / activities
- Enable / attract funding

and  
/ or

## 3 Be feasible

Such as:

- Is not cost prohibitive
- Within achievable legal / regulatory limitations
- Agency has path to authority, where required
- Is operationally possible

# Preliminary Regional Role for Functional Area Activities

## Fare Integration Policy

- Set the **regional vision** for fare integration (C/F)
- Establish regional fare integration **policies** (e.g., Tier 3/4) (C/E/F)
- Establish policy implementation plans, including the **identification of funding** (E/F)

## Wayfinding & Mapping

- Set the **regional vision** for wayfinding (C/F)
- Establish regional wayfinding **policies** (e.g., design standards, compliance requirements) (C/E/F)
- Establish policy implementation plans, including the **identification of funding** (E/F)
- Deliver centralized procurement, where relevant (E/F)

## Accessibility

- Embed accessibility within each of the other functional area plans (C/F)
- Define a regional vision for paratransit operations (C/F)
- Identify improvements needs re: implementation of paratransit policies and requirements (C/F)
- Establish a regional implementation plan (C/E/F)

## Bus Transit Priority

- Set the **regional vision** for BTP (C/F)
- **For BTP Corridors:** Define corridors, establish standard data / reports; identify needs / initiatives; serve as the central coordination point for state, county, and city stakeholders (C/E/F)
- **For Non-BTP Corridors:** Recommend potential initiatives; serve as the central coordination point for state, county, and city stakeholders (C/E/F)
- Establish policy implementation plans, including the identification of funding (E/F)

## Rail Network Mgmt.

- Set the **vision** for the regional rail network (C/F)
- Translate regional vision into regional implementation plan (project prioritization, sequencing, integration points, project funding, delivery approach, etc.) (C/E/F)

## Connected Network Planning

- Identify critical regional transit gaps to create CNP (C/F)
- Establish and create data tools for regional planning (E/F)
- Identify funding priorities and establish service standards (C/E/F)
- Draft changes to CTP guidelines to include identified regional transportation gaps in county planning process (C/F)

## Key Takeaways

- 1) Regional Role:** Regional entity will set the vision, make select funding decisions, develop the regional policies, create implementation plans, and implement regional programs (as needed) by coordinating stakeholders
- 2) Operator Role:** Operators will be highly involved in regional decision making, provide local stakeholder perspectives / needs, and implement regional policies
- 3) RNM Framework:** RNM Framework will need to be designed to facilitate the effective and efficient interplay of these two roles (see slide 14 for key operating model needs)

**Legend:** C = Improve the Customer Experience E = Unlock Efficiencies F = Be Feasible

# The current-state assessment revealed cross-cutting challenges for which the RNM Operating Model will be focused to address:

## Governance and Decision Rights

- Need to establish a single entity to coordinate / drive regional decision making
- Need to place existing / potential customers at the forefront of decision making
- Need to provide then RNM with clear policy purpose and hold the RNM accountable for delivery
- Need to establish common regional objectives / vision

## Metrics and Incentives

- Need to establish standardized regional metrics
- Need to give the RNM authority / incentivize participation in regional activities (e.g., through new approaches to funding)
- Need to be able to obtain commitment from the participants in the RNM

## Roles and Structures

- Need to leverage existing resource capabilities and capacities in the short/near term, but enable ability to scale over the long term
- Need to provide technical and communications capacity to support Operators
- Need to include a broad range of stakeholders

## Behaviors and Culture

- Need to promote collaboration and trust between policy funding bodies and implementation bodies
- Need to ensure cross-integration of regional priorities
- Need to find right leader to drive the growth and success of the RNM and regional objectives

## Core Processes

- Need to improve planning / coordination processes
- Need to provide a simpler interface for key stakeholders / riders to provide input or coordinate activities
- Need to enable faster and more inclusive decision-making processes

## Technology and Tools

- Need to establish regional tools (e.g., regional travel market/demand model)
- Need to establish common language for data collection and reporting
- Need to enable centralized / shared procurement, where beneficial / possible

# To address these challenges, the RNM will need three key elements

## Regional Visioning Element

- Set the strategic vision / direction and ensure outcomes for customers
- Be accountable for regional transit network policy and priorities
- Approve / create / revise regional policies
- Approve new and existing sources of funding
- Provide a voice to key stakeholders to enable trust

## Steering Element

- Provide / reach consensus on policy recommendations (to be approved by Regional Visioning Element or Operators)
- Define and report performance metrics on outcomes for RNM
- Guide Administrative / Operational Element on execution

## Administrative / Operational Element

- Provide a dedicated staff and tools to enable execution and provide capacity support
- Develop policy recommendations / options to be acted on by Steering Element
- Support the Steering Element through subject matter expertise, execution, and coordination
- Provide a voice to key stakeholders to enable trust

# These three elements can be delivered through several components

## Regional Visioning Element

**MTC RNM Committee:** Leverage existing regional purview and planning capabilities to help set the regional vision for transit in the Bay Area and drive the direction of the RNM

**“Voice of the Customer” Advisory Committee:** Group of stakeholders who represent the customer and can help inform decision-making with the customer in mind

## Steering Element

**RNM Council:** Council comprised GM-level Operator and MTC representatives who understand transit operations and can represent the interests of their stakeholders, make critical decisions on regional polices, and provide leadership

## Administrative / Operational Element

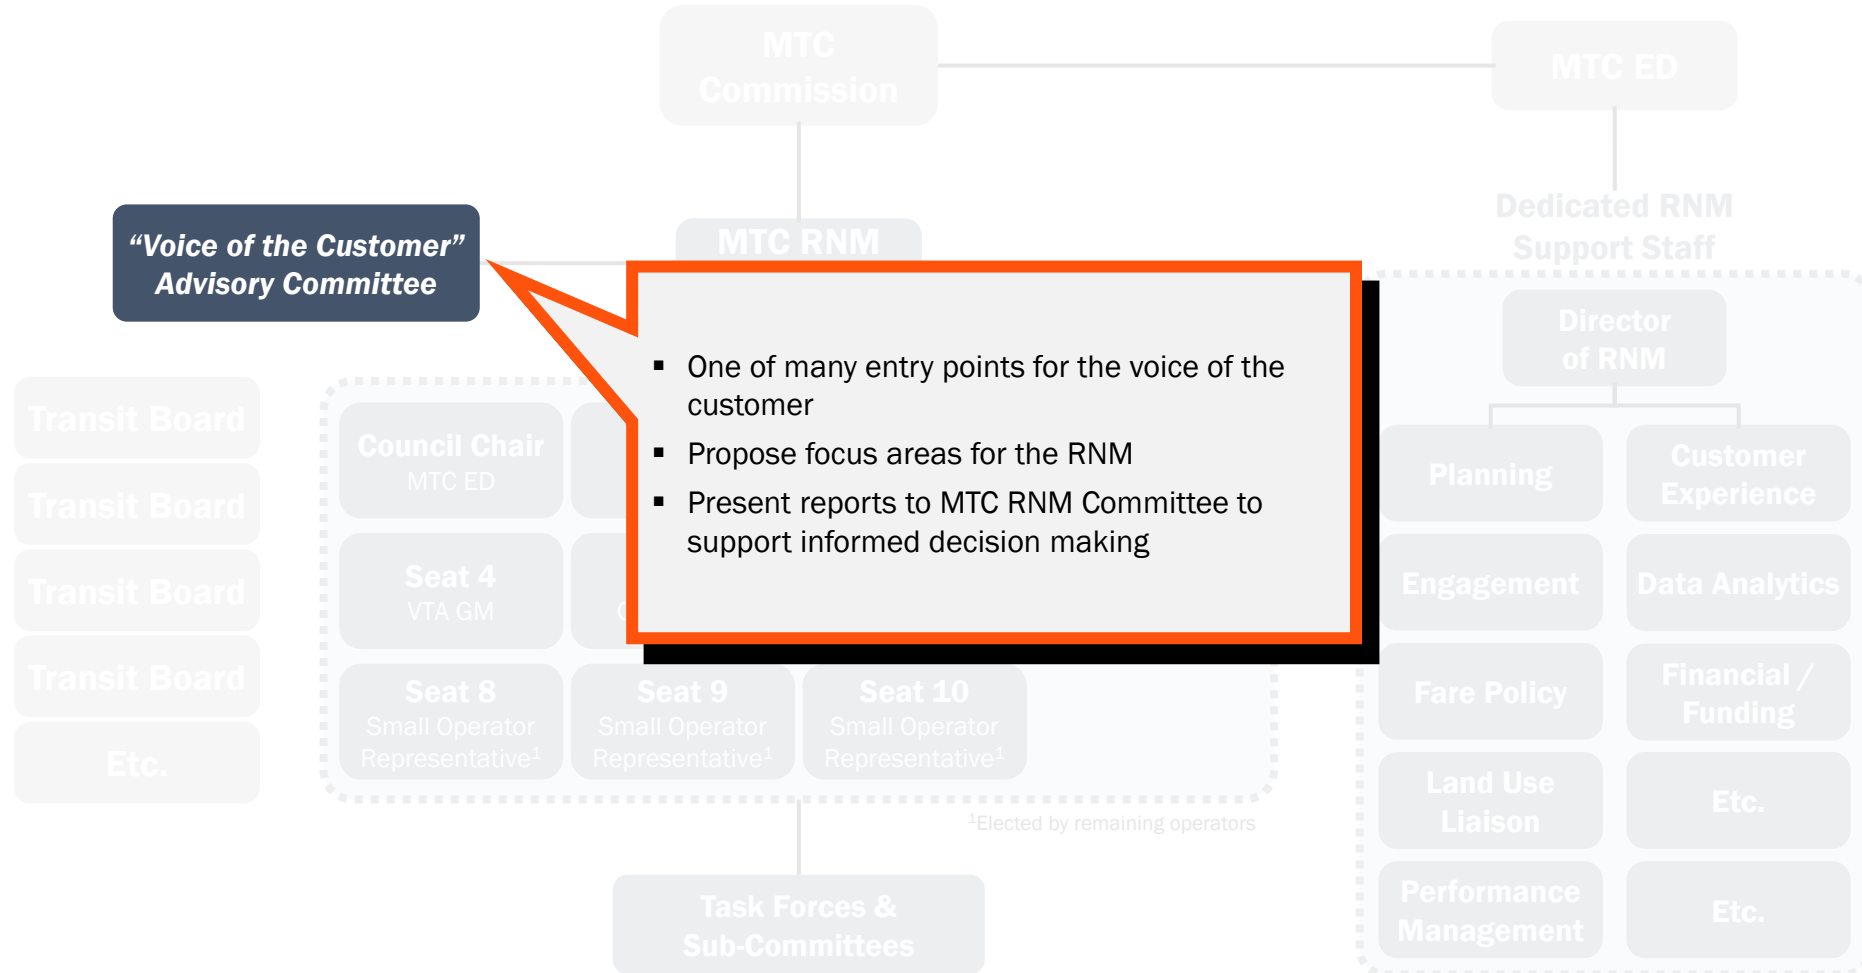

**Dedicated RNM Support Staff:** Group of dedicated staff (potential opportunity for seconded staff as well) with a broad range of capabilities and expertise to support the operations and analysis of the RNM

**Task Forces & Sub-Committees:** Temporary (Task Forces) or longer-term (Sub-Committees) groups comprised a broad range of representatives, including Operators, stakeholders, and subject matter experts, that will help complete analysis and develop policy recommendations / options for topics
