MTC TIP Revision No. 2023-11 - Administrative Modification RE:

Kien Le, Office Chief

Sacramento, CA 94273-0001

P.O. Box 942873

Attention: Peter Kang

Please be advised that MTC recently made several changes to the 2023 Federal Transportation Improvement Program (TIP). TIP Revision No. 2023-11 revises 12 projects with no net change in funding across all program years. Among other changes, this revision updates the funding plans of 11 projects to change the sources of funding between Surface Transportation Block Grant/Congestion Mitigation and Air Quality Improvement (STP/CMAQ) and Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) of 2021 funds.

MTC's 2023 TIP, as revised with Revision No. 2023-11, remains in conformity with the applicable State Implementation Plan (SIP) for air quality and the revision does not interfere with the timely implementation of the Transportation Control Measures contained in the SIP.

The investments described in MTC's 2023 TIP, as revised with TIP Revision No. 2023-11, make progress toward achieving the performance targets set by the region in accordance with the applicable provisions and requirements of 23 CFR Part 450.

The projects that are included in this administrative modification are not included in any other amendment that is open for public review. MTC's 2023 TIP, including the proposed Revision No. 2023-11, is consistent with metropolitan transportation planning regulations per 23 Code of Federal Regulations Part 450 and conforms to MTC's Regional Transportation Plan.

Under the delegated authority received from Caltrans, I approve this administrative modification to the Federal Statewide Transportation Program (FSTIP). This revision is Brad Paul consistent with the approved Administrative Modifications/Amendments Guidelines and Deputy Executive Director, Local Government Services Procedures.

If you have any questions regarding this revision, please contact Adam Crenshaw of my staff at (415) 778-6794; or John Saelee at (415) 778-6711.

Sincerely,
