Subject:

Adoption of Public Transit Revenue Measure District (“District”) Resolution No. 2—
Acceptance of Certification for “Connect Bay Area Transit Initiative” (“Initiative Measure”) and Request to Boards of Supervisors of the Counties of Alameda, Contra Costa, San Mateo, Santa Clara, and the City and County of San Francisco to Call a Special Election on the Initiative Measure to be Consolidated with the November 3, 2026, Statewide General Election Pursuant to Government Code Section 67740(a)

Background:

Title 7.85 of the California Government Code, commencing with Government Code Section 67700 (Senate Bill 63/Connect Bay Area Act, Wiener/Arreguín, October 13, 2025) created the Public Transit Revenue Measure District (PTRMD, or “District”) with jurisdiction extending throughout the territorial boundaries of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the City and County of San Francisco. This new law provided that the District will be governed by the same board that governs the Metropolitan Transportation Commission (MTC).

As provided in Government Code Sections 67730 and 67732, the District, or alternatively a qualified voter initiative, may impose a retail transactions and use tax ordinance applicable to the entire district for a duration of 14 years, and in an amount of 0.5% in each of the above-described counties located within the district and 1% in the City and County of San Francisco, subject to voter approval at the November 3, 2026, statewide general election. Pursuant to Section 67700 *et seq.*, the District has many responsibilities should a tax measure be proposed under this title, including administrative responsibilities related to the November 3, 2026, statewide general election, and additional responsibilities if such measure were to be approved by the voters.

Initiative Process and Signature Collection Requirements

On January 16, 2026, the District received a notice of intention from the Connect Bay Area Transit Committee to circulate an initiative petition for the purpose of placing the Initiative Measure on the November 3, 2026, general election ballot. The District Elections Official found this submission complied with the necessary requirements pursuant to Elections Code Section 9304. On May 26, 2026, proponents for the Initiative Measure submitted petitions containing signatures to the Registrar of Voters of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and to the Department of Elections of the City and County of San Francisco, which were subsequently accepted. It was determined the total number of signatures that had been collected across the entire District was 306,288. Pursuant to Elections Code Section 9310, subdivision (a), the requisite number of signatures required to qualify the Initiative Measure for the ballot was 187,119, which is 5% of 3,742,378. This latter figure represents the total number of registered voters within the District, as calculated by the last report of registration issued by the California Secretary of State prior to the filing of the notice of intention.

To determine the estimated number of valid signatures pursuant to Elections Code Section 9309, subdivision (a), the Registrar of Voters of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the Department of Elections of the City and County of San Francisco used a random sampling technique of three percent (3%) of the total signatures gathered in each county (and city and county) for the verification of signatures. Combined, the Registrar of Voters of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the Department of Elections of the City and County of San Francisco collectively reviewed 9,190 signatures, which is approximately 3% of 306,288, finding 7,260 valid signatures and 1,930 invalid signatures (including 6 duplicate signatures), establishing that approximately 79.00% of signatures were valid.

Certification of Initiative Petition

Applying these findings to the signature verification formulas set forth in California Code of Regulations, Title 2, Sections 20530 through 20532, the District Elections Official found that the petition contained a combined estimated value of 235,503 valid signatures of qualified registered

voters in the District. This exceeds the 110% threshold of required signatures (205,831) necessary to declare the Initiative Measure sufficient pursuant to Elections Code Section 9309. The District Elections Official then prepared a “Certificate to Initiative Petition” reflecting these findings, dated July 1, 2026, which is included as an attachment to District Resolution No. 2.

Elections Code Section 9309, subdivision (f), requires that the certification of the results of the examination of the signatures of an initiative petition be submitted to the Board of the District at the next Board meeting following the certification. Following certification, and pursuant to Government Code Section 67740, subdivision (a), the Boards of Supervisors of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the City and County of San Francisco must call a special election on the Initiative Measure in their respective counties (and city and county) to be held on November 3, 2026.

District Resolution 2 Overview

In addition to accepting the District Elections Official’s certification of the initiative measure and requesting the call for an election pursuant to Government Code Section 67740, subdivision (a), District Resolution No. 2 also contains other administrative information and requirements, including the text of the ballot question, information regarding the placement and designation of the measure, and details regarding District and individual county-based deadlines, including those for the submission of ballot arguments and rebuttals. It also provides important details related to the passage of SB 830, an urgency statute signed into law on July 16, 2026, which updates certain election-related aspects of SB 63, including a change that ballot arguments and rebuttals will be submitted to, and selected by, the respective election officials for each county (or city and county) rather than the District.

Importantly, the Resolution also directs and empowers the District Elections Official and other specified staff to take any and all actions necessary under the law to ensure the measure is submitted to the voters during the November 3, 2026 statewide general election. This includes the power to take all actions necessary to prepare for and conduct the election, including, but not limited to, amendments and/or corrections to the Resolution or its exhibits as necessary to conform to any legal or other regulatory requirement.

As a voter-sponsored initiative, the Initiative Measure is not a project subject to the requirements of the California Environmental Quality Act (Public Resources Code Section 21000, et seq.) (“CEQA”) pursuant to CEQA Guidelines Section 15378(b)(3) and the California Supreme Court’s decision in *Friends of Sierra Madre v. City of Sierra Madre* (2001) 25 Cal.4th 165, 189-191. Additionally, it can be seen with certainty that there is no possibility the adoption and implementation of the Initiative Measure may have a significant effect on the environment, and accordingly, the adoption of the Initiative Measure is also exempt from CEQA pursuant to the “common sense exemption” codified at CEQA Guidelines Section 15061(b)(3).

Recommendations:

Staff recommend the District adopt Resolution No. 2.

ELECTION OFFICIAL'S CERTIFICATE TO INITIATIVE PETITION

Corrected: July 1, 2026

I, Kimberly Ward, District Elections Official of the Public Transit Revenue Measure District ("District"), State of California, do hereby certify the following:

Pursuant to the District's authorization, an initiative petition, entitled the "**Connect Bay Area Transit Initiative**" ("Initiative Measure") was submitted directly to the Registrars of Voters of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the City and County of San Francisco on **May 26, 2026**, within the statutory time limit established by Elections Code Section 9306.

The petition contained a combined total of **306,288** unverified signatures; and pursuant to Elections Code Section 9310, subdivision (a), the requisite number of signatures required to qualify the Initiative Measure to the ballot is **187,119**, which is 5% of **3,742,378**, the total number of registered voters within the District. The Registrars of Voters of the Counties of Alameda, Contra Costa, San Mateo, and Santa Clara, and the City and County of San Francisco examined the signatures on the petition pursuant to Elections Code Sections 9308 and 9309 and Government Code Section 67740, subdivision (c), and provided the results to the District for determination of sufficiency.

The District has determined that the petition contained an estimated value of **235,503** valid signatures of qualified registered voters in the District, based on the random sample signature verification technique used by each registrar of voters, as set forth in Elections Code Section 9309, subdivision (a). Because **235,503** valid signatures exceeds the 110% threshold of **205,831** required to qualify the Initiative Measure, as set forth in Elections Code Section 9309, subdivision (b), the petition was found to be sufficient.

IN WITNESS WHEREOF, I certify this action through my signature on this 1st day of July 2026.

Kimberly Ward, District Elections Official

Public Transit Revenue Measure District

July 1, 2026

CONNECT BAY AREA TRANSIT INITIATIVE

The people of the Public Transit Revenue Measure District do ordain as follows:

SECTION 1. Title.

This ordinance shall be known, and may be cited, as the “Connect Bay Area Transit Initiative.”

SEC. 2. Findings and Declarations.

The people of the Public Transit Revenue Measure District find and declare all of the following:

- (a) The San Francisco Bay Area needs a world-class, reliable, affordable, efficient, and connected public transportation network that connects residents, businesses, and visitors to jobs, services, universities, recreation, and opportunities.
- (b) The Bay Area is served by a large public transit network that safely, reliably, and affordably connects millions of residents and visitors each week. This public transit network supports the region’s economy and local communities, promotes sustainable growth, provides access to opportunity, and reduces the cost of living for Bay Area families.
- (c) Since the COVID-19 pandemic, the Bay Area’s largest public transit systems have experienced fiscal pressures and recurring budget shortfalls that threaten the level and quality of service they can provide. These fiscal pressures imperil the region’s transit agencies and threaten to undermine the region’s economy, worsen our air quality and public health, increase carbon emissions, and reduce access to opportunity for all transit riders, particularly low-income communities, seniors, people with disabilities, and youth.
- (d) Until now, relief funding from the federal government and the state has forestalled drastic service cuts. However, this relief funding is now exhausted and, despite cost control efforts and steady ridership recovery, the Bay Area’s largest transit operators — BART, Muni, AC Transit, and Caltrain — collectively face operating deficits of more than \$800 million annually starting in the 2027–28 fiscal year.
- (e) Agencies have taken significant measures to close their deficits, reduce operating costs, and boost ridership, including freezing hiring, renegotiating contracts, modernizing operations, improving fare enforcement, lowering energy costs, and expanding safety staffing. Crime is down on BART, Muni reliability is at a two-decade high, and Caltrain’s new electric service is more efficient and cost-effective.
- (f) Even with these efficiency and accountability measures in place, though, these transportation agencies continue to face severe budget deficits that will require drastic service cuts if new revenue is not identified to support operations.

(g) BART could be forced to significantly cut service, including potentially reducing weekly trains, closing lines, eliminating weekend service, shutting stations, and ending weekday service earlier in the evening.

(h) Caltrain could reduce service, potentially running trains on a significantly reduced schedule, ending weekday service earlier in the evening, and eliminating weekend service completely.

(i) Muni could potentially face drastic cuts to bus and Metro lines, suspension of entire neighborhood routes, and reduction of iconic cable car and historic streetcar service.

(j) AC Transit could reduce service, leaving operations significantly below pre-pandemic levels and cutting critical connections for East Bay residents.

(k) Smaller operators, including county bus systems, community shuttles, and rural connectors, face service cuts that threaten lifeline routes for seniors, people with disabilities, students, and essential service workers.

(l) Agencies would also be forced to cut maintenance, safety personnel, and cleaning services, leading to declining conditions for riders and a service “death spiral” that could take decades to reverse.

(m) Public transit fiscal needs are particularly severe in the City and County of San Francisco, where the core transit systems of Muni, BART, and Caltrain face significant funding shortfalls.

(n) The Bay Area’s public transit network is a lifeline for many communities. Low-income residents make up approximately 31% of BART riders, 38% of Muni riders, and 70% of AC Transit riders. Families, students, seniors, people with disabilities, workers, and visitors rely on transit to access jobs, schools, healthcare, and essential services.

(o) Transportation is the second-largest cost for Bay Area households after housing. For low-income families, owning and operating a car is often impossible. Nearly half of BART riders do not own a car. Reliable transit reduces these costs and keeps the region more affordable.

(p) Transit is the backbone of the regional economy. Restaurants, hospitals, universities, retail districts, and employers depend on workers who rely on transit. Without transit, employers face higher turnover, workers face longer commutes, and economic productivity declines. Commute times could rise by up to 12 hours per week in key corridors if transit service is cut, imposing significant economic and personal burdens.

(q) Without transit, Bay Area roads would be paralyzed. If displaced transit riders shift to cars, Bay Bridge traffic would surge and highways like 101, 80, 280, 680, 880, 85, and 87 would become severely congested.

(r) Public transit is critical to meeting California’s climate goals. Transit reduces greenhouse gas emissions and improves air quality by reducing car trips. Without transit, emissions would spike,

air pollution would worsen, particularly in low-income communities, and climate progress would stall.

(s) In 2025, the California Legislature passed Senate Bill 63 (SB 63) — the Connect Bay Area Act — to authorize a 14-year regional transit revenue measure in Alameda, Contra Costa, San Francisco, San Mateo, and Santa Clara counties to support transit operations and rider-focused programs. SB 63 establishes a new Public Transit Revenue Measure District to place a revenue measure on the ballot, or alternatively allows placement of a revenue measure on the ballot through a citizens’ initiative. This ordinance constitutes such a citizens’ initiative.

SEC. 3. Statement of Purpose.

It is the purpose of the people of the Public Transit Revenue Measure District in enacting this ordinance to achieve all of the following:

- (a) To generate approximately \$980 million annually to prevent catastrophic transit service cuts, preserve essential lifeline routes, maintain safety and cleanliness standards, and support the coordinated, reliable transit riders depend on.
- (b) To provide counties with dedicated funding that stays in the county to support local priorities, strengthen community connections, and maintain neighborhood routes that provide critical first-mile/last-mile access to regional systems.
- (c) To provide funding throughout the district commensurate with the needs of transit agencies in each county or city and county, including the heightened need for transit funding in the City and County of San Francisco that will be supported with the proceeds from a higher tax rate in that jurisdiction.
- (d) To impose strict oversight and transparency requirements to ensure that every dollar is spent efficiently and directly benefits riders.
- (e) To require independent efficiency reviews; performance metrics tied to safety, cleanliness, reliability, and ridership; regional coordination mandates to ensure agencies work together and deliver an integrated customer experience; and a citizen oversight committee to monitor spending, publish public reports, and ensure compliance.
- (f) To provide dedicated resources to support and expand reforms the transportation agencies have made — such as regional fare coordination, transfer discounts, coordinated signage and wayfinding — and also require ongoing improvements so that new funding produces cleaner, safer, and more reliable service for all who live and work in the Bay Area.
- (g) To impose a temporary special retail transactions and use tax in accordance with the provisions of Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code which shall be operative for a period of 14 years if a majority of the electors voting on the measure vote to approve the imposition of the tax.

(h) To adopt a retail transactions and use tax ordinance that incorporates provisions identical to those of the Sales and Use Tax Law of the State of California insofar as those provisions are not inconsistent with the requirements and limitations contained in Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code.

(i) To adopt a retail transactions and use tax ordinance that imposes a tax and provides a measure therefor that can be administered and collected by the California Department of Tax and Fee Administration in a manner that adapts itself as fully as practicable to, and requires the least possible deviation from, the existing statutory and administrative procedures followed by the California Department of Tax and Fee Administration in administering and collecting the California State Sales and Use Taxes.

(j) To adopt a retail transactions and use tax ordinance that can be administered in a manner that will be, to the greatest degree possible, consistent with the provisions of Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, minimize the cost of collecting the transactions and use taxes, and, at the same time, minimize the burden of record keeping upon persons subject to taxation under the provisions of this ordinance.

The gross receipts from such sales shall include delivery charges when such charges are subject to the state sales and use tax, regardless of the place to which delivery is made. (2) The substitution shall not be made if it would require action to be taken by or against the district or any agency, officer, or employee thereof rather than by or against the department in performing the functions incident to the administration or operation of this ordinance.

(3) The substitution shall not be made if the substitution would do either of the following:

(A) Provide a tax exemption with respect to certain sales, storage, use, or other consumption of tangible personal property that would not otherwise be exempt while such sales, storage, use, or other consumption remains subject to tax by the state under the provisions of Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code.
