Attachment B: Recommended CARE Power-building and Engagement (Pb+E) Program of Projects (Alphabetical Order by County)

CATEGORY 1: CAPACITY BUILDING

County	Sponsor	Project Title	Recommended Funding	Project Description
SC	Veggielution	Our Streets, Our Future: Training Local Voices for Sustainable Housing Solutions	$ 50,000	Veggielution will form, educate, and foster leadership groups among its 130+ community members to advocate for and enhance affordable, climate-friendly housing options. The project will organize residents to address housing needs while addressing climate impacts on communities affected by highways and environmental inequities.
SC	Silicon Valley Youth Climate	Lowering the Barriers of Youth Civic Engagement	$ 50,000	Silicon Valley Youth Climate Action will develop and incorporate workshops on connections between climate, transportation, and affordable housing into their Summer Leadership Academy and Youth Climate Summit. Participants will gain understanding of multi-disciplinary climate solutions and practical experience through student-led action teams.
SC, SM	Karat School Project	Building Housing Equity Leadership Among RV-Dwelling Families	$ 50,000	The Karat School Project will strengthen capacity to engage housing-insecure RV-dwelling immigrant families in housing decision-making processes and build leadership around equitable housing policies. The initiative will build capacity at organizational, community, and policy levels while engaging housing insecure families as experts shaping fair housing.
SF	Leah's Pantry, Inc.	Safe Streets for Bayview Seniors	$ 50,000	Leah's Pantry will work with the Bayview Hunters Point Community Advisory Board and WALK SF to develop a community-led Action Plan enhancing walkability and increasing access to essential resources for older adults. The capacity building effort will strategically expand the CAB's scope and influence transportation, housing, and climate policy.
SF	South of Market Community Action Network	Raising Voices for Affordable Housing in Transit Districts	$ 50,000	The Project will adopt a transit-corridor approach to preserve and expand affordable housing for immigrant and low-income workers and families in San Francisco. The project will enable historically marginalized populations to live close to employment, transit and essential services while advancing REAP goals.

SOL	The Time is Ya Network	8 Poderosas Mentorship	$ 50,000	The Time is Ya Network will empower Latina women and youth in Vallejo through the 8 Poderosas Mentorship Program to become community leaders driving housing and transportation equity. The program uplifts voices of those most impacted by housing insecurity and car dependency through mentorship, skills-building, and community organizing.
SON	North Bay Organizing Project	Movement Building for Innovative Housing Solutions	$ 50,000	The project will increase community leadership around housing and climate change through leadership development that builds capacity to host training on innovative housing solutions. The project will expand organizational capacity to generate climate-focused housing solutions through knowledge sharing with other disaster-impacted communities.
		TOTAL	**$350,000**	

CATEGORY 2: PARTNERSHIPS AND COLLABORATIONS (Alphabetical Order by County)

County	Sponsor	Project Title	Recommended Funding	Project Description
ALA	My Eden Voice	Our Land, Our Home – Bridging Tenant Organizing and Community Land Trusts	$ 100,000	The project will build resident power by bridging tenant organizing and community land ownership in the Eden Area to increase permanently affordable housing. The joint pilot will increase resident awareness and leadership in community-owned land and housing while developing enduring structures for permanently affordable, community-controlled housing.
ALA, CC, SC, SOL	The Center for Independent Living	Peer Power for Disability Equity in Governance	$ 100,000	The project will train and support 10 Peer Ambassadors with disabilities and intersecting identities to engage directly in local and regional governance shaping housing, transportation, and climate planning. The project will develop advocacy, facilitation, and organizing skills of IL staff to better center disability equity in governance.
ALA, SM	Foundation 4 Innovation, Inc.	Sustainable Futures: MTC Social Media and Marketing Challenge (SM2C)	$ 100,000	The project will implement the Sustainable Futures: SM2C, a 12–16-week program engaging students in youth-led storytelling that transforms complex REAP 2.0 planning issues into accessible content. Students will build digital fluency, leadership skills, and career readiness while creating outreach content for regional housing and transportation priorities.
NAP	On The Move	Youth Pathways Project: Youth Voices Building Climate-Smart Transportation	$ 100,000	The project will adapt USDOT best practices through an eight-month, youth-led initiative at Napa High School to increase awareness and use of alternative transportation among students. Youth will develop technical knowledge through equity-driven data training and analysis while engaging in participatory evaluation and cross-sector collaboration.
		TOTAL	**$400,000**	

CATEGORY 3: COMMUNITY PROJECT (Alphabetical Order by County)

County	Sponsor	Project Title	Recommended Funding	Project Description
ALA	Healthy Black Families, Inc.	Equity 4 Black Berkeley – Adeline Redevelopment/Transit Oriented Housing	$ 150,000	The project will advance a community-driven initiative to transform parking and transportation spaces into a resilient neighborhood hub reflecting five core priorities: housing affordability, historic/cultural significance, commercial revitalization, place-making, and reparative justice. The Adeline Ashby TOD will deliver 600+ new homes (35-50% affordable) alongside below-market commercial space and community facilities.
CC	Rebuilding Together East Bay Network	Big Skills: Antioch Infill Housing and Anti-Displacement Initiative	$ 170,000	The project, through the Infill Housing Initiative, is an innovative, community-driven project addressing housing affordability, displacement, and climate resilience in Antioch's Equity Priority Communities. Through this initiative, RTEBN will identify low-income homeowners, develop suitable infill sites, and place modular, all-electric Accessory Dwelling Units (ADUs).
MAR	Canal Alliance	Canal Community Housing Plan	$ 150,000	The project will produce an actionable housing strategy for the Canal district including financial models, community-driven design concepts, partnership mapping, and a housing pipeline. The plan will identify concrete steps for attracting investment in housing, acquisition-rehabilitation sites, and strategies for protecting existing affordable units in this EPC.
SC	Acterra	Ride for Clean Air	$ 170,000	The project partners with schools in San Jose's EPCs to expand safe, accessible, and equitable biking opportunities. The project will raise awareness and show the health benefits of reduced car use. The project will engage school staff, parents, and students in co-designing and strengthening Bike to School and Last Mile campaigns. A mini e-bike voucher program will offer about 35 vouchers to school staff and residents facing more barriers to active transportation.
SF	Filipino-American Development Foundation	Russ Street Cultural Greenway and Community Gateway	$ 110,000	FADF and SOMA Pilipinas will develop Russ Street as a pedestrian-friendly cultural corridor, competing predevelopment work for a permanent Filipino Cultural Heritage District gateway monument. The project will improve pedestrian pathways, connecting key community institutions through streetscape enhancements including murals, tree planting, and pedestrian safety improvements
		TOTAL	**$750,000**	

TOTAL CATEGORIES (1, 2, and 3): $1,500,000
