Agenda Item 2b-26-2166

MTC Resolution Nos. 3667, Revised and 4721, Revised. Rescission and Reallocation of \$1.2 million in Regional Measure 2 (RM2) Capital Funds to the Bay Area Rapid Transit District (BART) and Allocation of \$253,000 in RM2 Capital Funds to the Metropolitan Transportation Commission (MTC)

Subject:

Recommended allocation of a net total \$253,000 in RM2 capital funds to two projects:

- RM2 Project 31.2, BART Extension to Warm Springs – Rescission of \$1.2 million from the right-of-way and construction phases and allocation of \$1.2 million to the right-of-way phase to complete environmental mitigation.
- RM2 Project 29.9, Quarry Road Connection at Palo Alto Transit Center Project - \$253,000 to MTC for the final design phase from RM2 Project 29 - Regional Express Bus Service for San Mateo, Dumbarton, and Bay Bridge Corridors.

Background:

Voters approved RM2 in 2004 to raise the toll price on state owned bridges by \$1 and fund the Regional Traffic Relief Plan, which includes 40 named capital projects.

BART Extension to Warm Springs – Wetland Mitigation Endowment

Under RM2 project 31.2, MTC allocated a total of \$174 million to multiple project phases to support delivery of the BART extension to Warm Springs, which was completed and opened for revenue service in 2017. Approximately \$1.2 million remains allocated but unspent in right-of-way and construction allocations for this subproject.

The original right-of-way acquisition plan and approvals for the extension to Warm Springs required the establishment of a wetland mitigation site to compensate for impacts of project construction, including an eventual endowment funded by BART to provide for ongoing management, monitoring, maintenance, and protection at the site. BART has established the BART WSX Mitigation Site, prepared a long-term management plan, and received approval by the California Department of Fish and Wildlife of the site and plan with a maintenance endowment amount of approximately \$1.6 million if funded in 2026.

BART submitted a request to rescind remaining funds in the right-of-way and construction allocations and reallocate the balance of \$1.2 million to BART to fund the wetland endowment. This allocation would enable full spend-down of remaining RM2 funds for the project and support final close out the right-of-way phase. BART will fund the remainder of wetland endowment, and additional right-of-way closeout support costs, with local funds.

Quarry Road Connection Project at Palo Alto Transit Center

RM2 Project 29: Regional Express Bus Service for San Mateo, Dumbarton, and Bay Bridge Corridors set aside funding for bus infrastructure and rolling stock on these bridge corridors. Prior MTC actions set aside approximately \$5 million for upcoming Dumbarton corridor bus and transit projects under MTC's Dumbarton Forward program.

In July 2025, MTC allocated \$250,000 of these funds to the Quarry Road Connection at Palo Alto Transit Center (PATC) project for environmental and preliminary engineering. This project will construct a new bus-only roadway at the Palo Alto Transit Center to improve bus operations and reduce transit travel times. Additional detail about this project and a conceptual diagram are included in Attachment A.

The project is exempt from CEQA and the City has approved a Notice of Exemption. Preliminary engineering plans were prepared and are anticipated to be finalized in November 2026, after which final design will begin. The City has collaborated with MTC staff on a request for \$253,000 in RM2 capital funding for final design, which will also include completion of studies and documentation related to City and Caltrans permitting and approvals.

Regional Compliance and Recommendation

The BART Extension to Warm Springs was completed prior to the adoption of the Complete Streets Policy and Transit Priority Policy for Roadways and is therefore exempt from the policies' requirements.

The Quarry Road Connection project is subject to the requirements of the Complete Streets Policy contained in MTC Resolution No. 4493. A satisfactory complete streets checklist has been submitted for this project.

Staff recommend the commission approve a rescission and reallocation of approximately \$1.2 million to BART for the BART Extension to Warm Springs right of way phase and allocation of \$253,000 in RM2 funds to MTC for final design of the Quarry Road Connection at Palo Alto Transit Center Project.

Issues:

None identified.

Recommendations:

Refer MTC Resolution Nos. 3667, Revised and 4721, Revised to the Commission for approval.

Quarry Road Connection at Palo Alto Transit Center Project Detail

The Palo Alto Transit Center (PATC) is served by SamTrans, VTA, and Dumbarton Express bus lines and the Stanford University Marguerite shuttle, totaling 600 buses a day. The PATC and University Avenue, currently the only road with access to PATC, are both congested during peak hours.

The Quarry Road Connection at PATC project would construct a new roadway (“A” on diagram below) to allow buses that use the terminal to exit via Quarry Road to El Camino Real rather than circle back through University Avenue. The project will also implement pedestrian and bicycle upgrades at the Quarry Road intersection (“B” on diagram below) and in El Camino Park (“C” on diagram below) to improve safety, access, and connectivity.

The project is estimated to reduce bus transit times by five minutes or more per trip, benefiting both Dumbarton Express buses and other connecting routes used by Dumbarton Express passengers. The project aligns with the Dumbarton Forward goals to improve express bus service and multimodal access in the Dumbarton Bridge corridor.

MTC is the RM2 project sponsor and fund recipient. MTC entered into a funding agreement with the City of Palo Alto, who will implement the project. Stanford University owns the land at PATC and El Camino Park and is partnering with Palo Alto in funding and implementing the project. Palo Alto and Stanford have executed a cost sharing agreement for design of the project and signed a letter of intent setting out intended terms for cost sharing on construction.

REGIONAL MEASURE 2 PROGRAM Project Specific Conditions

Project Title: The BART Extension to Warm Springs Project
Sponsor: San Francisco Bay Area Rapid Transit District
Project Number: 31.2

The allocation and reimbursement of RM2 funds for the above project are conditioned upon the following :

1. Receipt of these funds by the Bay Area Rapid Transit District is conditioned on working cooperatively with MTC and the relevant local jurisdictions to encourage Transit-Oriented Development with the goal of assuring that an appropriate number of residences, jobs, services and other activities will be planned for and located within proximity to the rail service.
2. BART may invoice MTC for eligible project expenses as frequently as monthly, in accordance with the cash flow plan.
3. Utility relocation will be limited to the project boundaries between Paseo Padre and Washington Boulevard.
4. The Bay Area Rapid Transit District (BART) shall spend allocated Traffic Congestion Relief Program (TCRP) funds before RM2 funds on segments of the project where TCRP funds are scoped and eligible. On segments of the project where the TCRP funds are not scoped and eligible, RM2 funds shall be available to proceed with RM2 funding reimbursements.

On February 25, 2009, the Commission approved the following conditions pertaining specifically to Allocation No. 2:

- 1 ACTIA's allocation of \$80 million in Measure B funds towards the construction phase of the project; this allocation is an effort on the part of ACTIA, to advance later year Measure B funds to offset the Proposition 1B shortfall and allow the project to proceed on schedule.
- 2 The BART board's approval of the Initial Project Report (IPR) and the resolution of project compliance.
- 3 Execution of a funding agreement between MTC and BART before the contract award, for the Regional Measure 1 90% Rail Reserve East and RM2 funds.
- 4 BART shall request the State Proposition 1B funds at the earliest time. Once available and approved for allocation towards this project, MTC would rescind the \$37 million in RM2 funds which are currently being used as an advance due to the unavailability of State funds.
- 5 If the bids for the subway construction contract are lower than anticipated, the savings against the MTC and ACTIA allocations would be moved to fund remaining sections of the project at a later time. At the completion of the project, any savings would be split among the local funding partners in amounts proportional to the capital contribution of each agency.

On January 27, 2010, the Commission approved the following conditions pertaining specifically to Allocation No. 3:

- 1 This allocation is conditioned on the BART Board's approval of the Initial Project Report (IPR) and the resolution of project compliance.
- 2 If the CTC approves the SLPP funds towards this project in January or February and Caltrans approves the Prop 1B Transit funds in January or February, the Commission may rescind this allocation in part and move to fund remaining sections of the project at a later time.

On July 28, 2010, the Commission approved the following conditions pertaining specifically to Allocation No. 4:

- 1 Approval of the Initial Project Report (IPR) package by the BART board.
- 2 Execution of a funding agreement covering RM1, RM2, and AB1171 funds, between MTC and BART prior to the Notice-to-Proceed (NTP) of the Line, Trackwork, Station, and Systems (LTSS) construction contract.
- 3 All the funding partners maintaining their funding commitment for the estimated \$890 million project as outlined in the 2008 revision to MTC Resolution No. 3434, unless agreed otherwise as part of condition #4 below.
- 4 Funding partners reaching an agreement prior to BART's NTP of the LTSS contract that outlines the distribution of potential total project cost savings or overruns, given disproportionate contributions by partners to date.

On December 16, 2015, the Commission approved the following conditions pertaining specifically to Allocation Nos. 4 and 5:

- 1 Allocations made on this date are conditioned upon California Transportation Commission approval of reallocation of \$1.6 million in State TCRP funds for the Warm Springs project from the Right-of-Way phase to the Construction phase.

Synopsis of Terms for Funding Agreement

Subway Segment

BART shall agree:

1. To complete the project described in its updated Initial Project Report, through its contractor.
2. That it shall not award the subway construction contract until MTC and BART agree to the terms of the funding agreement, including specific cash flow projections for bridge toll funds.
3. To comply with all provisions of MTC Resolution No. 3636, Revised and that any RM1 funds received under the funding agreement in addition to the RM2 funds be subject to MTC Resolution No. 3636 as revised.

MTC shall agree to provide BART an amount not to exceed \$167,000,000 in RM2 funds and \$20,000,000 in RM1 90% Rail Reserve East Funds.

LTSS Segment

BART shall agree:

1. To complete the project described in its updated Initial Project Report, through its contractor.
2. That it shall not award the construction contract until MTC and BART agree to the terms of the funding agreement, including specific cash flow projections for bridge toll funds.
3. To comply with all provisions of MTC Resolution No. 3636, Revised and that any RM1 and AB1171 funds received under the funding agreement in addition to the RM2 funds be subject to MTC Resolution No. 3636 as revised.

MTC shall agree to provide BART an amount not to exceed \$21,777,043 in RM2 funds and \$113,000,000 in RM1 90% Rail Reserve East Funds, and \$5,000,000 in AB1171 funds.

Mutually Agreed:

- The approved BART to Warm Springs LTSS construction plus soft cost, as of June 2011, totals \$437 million, which includes a 12.4% contingency. The 12.4% contingency is a reduction of approximately \$10 million from the 15% contingency previously estimated by BART to be required for successful completion of the LTSS phase. While this amount is within the financial envelope of \$890 million, it is higher than the currently identified and available funding.
- Bridge Tolls, Measure B, State Proposition 1B, BART, and VTA Measure A funds total \$421 million.

- Roughly \$16 million from the Right of Way phase and Central Park Subway segment combined can be assigned to the LTSS funding plan based on identified cost savings and budget adjustments as of June 2011.
- BART and the funding partners have agreed to proceed with the project using the available funding.
- Principles for addressing construction costs up to the \$10 million difference between approved project cost and available funding include, in priority order:
 1. Apply any additional savings from the Right of Way phase or Subway Segment after June 2011;
 2. Apply any savings from the LTSS construction contract or soft costs; and
 3. If additional funding is still needed, direct SFO net operating surplus revenues and Alameda STIP funds or other funds under the control of the Alameda County Transportation Commission to the project, in equal shares to the original funding plan adopted in September 2008 (44% and 56%, respectively).
- Should unexpected changes to the LTSS funding plan or costs occur beyond the \$10 million described above, the funding partners would need to agree on new principles for delivering the LTSS phase.

Programming and Allocations Committee**

October 14, 2026

Agenda Item 2c-26-2167

MTC Resolution Nos. 4505, Revised and 3989, Revised.

Subject:

Various revisions to the One Bay Area Grant (OBAG 3) and MTC Exchange Programs, including redirecting \$17.8 million from MTC's Regional Communications Infrastructure Upgrade and \$1.2 million from MTC's Regional Transportation Demand Management (TDM) balances to various projects, and programming \$5.4 million from MTC's Smart Transbay Transit program to WestCAT for Transit Signal Priority (TSP) System Upgrades and MTC for Bay Bridge Forward.

Background:

The OBAG 3 program establishes the policy and programming framework for federal Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement program (CMAQ) funds for FY 2027 through FY 2030.

MTC's fund exchange program provides local funds to deliver priority projects within the broader OBAG framework. The program facilitates funding agreements with partner agencies to exchange federal STP/CMAQ funds with non-federal local funds. These exchanges do not increase the total amount of funds available to the region but enable MTC to support key investments within the OBAG policy framework that are ineligible for STP/CMAQ funds.

This month, staff recommend the following revisions to the OBAG 3 and Exchange programs.

Strategic Reinvestment of Regional Program Balances

Staff recommend reprogramming approximately \$19 million in available balances from two OBAG 3 Regional Programs: \$17.8 million from the Regional Communications Infrastructure Upgrade program and \$1.2 million from the Regional Transportation Demand Management (TDM) program. These unspent balances have not yet been programmed to specific activities due to a combination of changes in project delivery approaches and provide an opportunity to strategically bolster the OBAG 4 Regional Program to address priorities identified by partner agencies and the Commission.

Throughout the OBAG 4 engagement and development process, partner agencies consistently emphasized the need for additional investment in transit transformation initiatives and active transportation. Redirecting these OBAG 3 balances to these areas responds to partner feedback, builds upon existing and planned regional programs, and accelerates the implementation of high-priority projects.

Staff recommend redirecting the \$19 million in available OBAG 3 funds to new and ongoing regional initiatives below that advance priorities identified through the development of the

OBAG 4 Regional Program, which is also being considered separately at this Committee under **Agenda Item 3a:**

- Transit Transformation: Transit Priority (\$10 million): Funds will supplement \$4.1 million remaining in OBAG 3 as well as \$6 million proposed in OBAG 4 for Transit Priority.
- Transit Transformation: Mapping and Wayfinding (\$4.3 million): Funds will supplement \$5.6 million remaining in OBAG 3 as well as \$19 million proposed in OBAG 4 for Mapping and Wayfinding.
- Active Transportation/Regional Trails Technical Assistance (\$1.5 million): Funds will supplement \$5 million proposed in OBAG 4 for Active Transportation and Regional Trails. As part of this action, staff recommend changing the fund source from federal STP/CMAQ to non-federal MTC exchange funds to address eligibility constraints.
- Regional Bikeshare (\$1 million): Funds will supplement \$6 million proposed in OBAG 4 for Regional Bikeshare. As part of this action, staff recommend changing the fund source from federal STP/CMAQ to non-federal MTC exchange funds to address eligibility constraints.
- Regional TDM Implementation (\$2.2 million): Funds to implement activities prioritized in the Regional TDM Roadmap currently under development and will supplement \$11 million proposed in OBAG 4 for Regional TDM.

Smart Transbay Transit

In November 2024, the Commission programmed \$5.4 million in OBAG 3 funds to implement strategies resulting from MTC's Smart Transbay Transit preliminary engineering phase. With the preliminary engineering phase now complete, staff recommend programming these funds to three specific projects best positioned for delivery of the recommended strategies:

- WestCAT TSP System Upgrade (\$750,000)
- MTC Bay Bridge Forward: Preliminary Engineering (\$2.6 million)
- MTC Bay Bridge Forward: I-80 Localized Transit Priority/HOV Strategies (\$2 million)

Issues:

None.

Recommendations:

Refer MTC Resolution No. 4505, Revised to the Commission for approval. Resolution No. 3989 is proposed for additional revisions under Agenda Item 2f, and is included once under that item

with all proposed revisions. Only applicable items approved by the Committee will be referred to the Commission.

**Metropolitan Transportation Commission
Programming and Allocations Committee**

October 14, 2026

Agenda Item 2d-26-2168

**MTC Resolution Nos. 4632, Revised; 4791; and 4797. Allocation of \$26.3 million in
Regional Measure 3 (RM3) capital funds to the Bay Area Toll Authority (BATA), Port of
Oakland, and Santa Clara Valley Transportation Authority (VTA)**

Subject:

Allocation of \$26.3 million in RM3 capital funds to three projects:

- RM3 Project 2, Bay Area Corridor Express Lanes Program – \$10 million to the Santa Clara Valley Transportation Authority for the US-101 Silicon Valley Express Lanes Phase 5 Project (RM3 Project #2.6).
- RM3 Project 3, Goods Movement and Mitigation Program – \$11 million to the Port of Oakland for the Green Power Microgrid Project (RM3 Project #3.5).
- RM3 Project 25, Richmond-San Rafael Bridge Access Improvements – \$5.3 million to the Bay Area Toll Authority for the Cutting Boulevard Transit Priority Project (RM3 Project #25.3).

Background:

Bay Area voters approved Regional Measure 3 (RM3) on June 5, 2018, and on December 19, 2018, the Bay Area Toll Authority (BATA) adopted a toll schedule phasing in the resulting toll increase. As of January 1, 2025, BATA has implemented the full three-dollar RM3 toll. MTC Resolution No. 4404, Revised, establishes policies and procedures to guide the delivery of capital projects funded by RM3. The overall RM3 capital expenditure program in statute is listed in Attachment A, including Commission-programmed subprojects, Letters of No Prejudice (LONPs), and allocations. Through September 2026, nearly \$2.32 billion in RM3 Capital Program allocations have been approved by the Commission and via Delegated Authority.

October RM3 Recommendations:

Staff recommends approval of \$26.3 million in RM3 allocations to three projects. The table below shows the recommended projects for this month's actions; summaries of each request are included in Attachment B, and further details are provided in each allocation resolution.

October 2026 Recommended RM3 Allocations – Project Summaries

Project 2 – Bay Area Corridor Express Lanes Program

RM3 provides \$316.7 million in toll funds to RM3 Project 2, Bay Area Corridor Express Lanes. This RM3 programmatic category funds activities to complete the Bay Area Express Lane Network. One allocation under this category is proposed this month:

RM3 #2.6 Santa Clara Valley Transportation Authority: US-101 Silicon Valley Express Lanes Phase 5 Project (\$10,000,000)

The Santa Clara Valley Transportation Authority (VTA) is the sponsoring agency for RM3 Project 2.6, the US-101 Express Lanes Phase 5 Project, and requests \$10,000,000 for the project's construction phase. This project will convert existing carpool lanes to express lanes and add a second express lane on US 101 between Fair Oaks Avenue and the US 101/I-880 interchange, along with auxiliary lanes, ramp modifications, and the electronic toll system infrastructure needed to support the express lanes. The project will address congestion on US 101 as part of VTA's broader Silicon Valley Express Lanes Program. VTA is expected to complete construction by June 2030.

The Commission programmed \$10 million of RM3 Express Lanes Program reserve funds to the US-101 Silicon Valley Express Lanes Phase 5 project via amendment to MTC Resolution No. 4411, Attachment B, on April 22, 2026.

Project 3 – Goods Movement and Mitigation Program

RM3 provides \$160 million in toll funds to RM3 Project 3, Goods Movement and Mitigation Program. This RM3 programmatic category funds projects to reduce truck traffic congestion and mitigate its environmental effects in Alameda County. Eligible projects include, but are not limited to, improvements in the County of Alameda to enable more goods to be shipped by rail, access improvements on Interstate 580, Interstate 80, and Interstate 880, and improved access to the Port of Oakland. One allocation under this category is proposed this month:

RM3 #3.5 Port of Oakland: Green Power Microgrid Project (\$11,000,000)

The Alameda County Transportation Commission and the Port of Oakland are the sponsoring agencies for RM3 Project 3.5, Green Power Microgrid Project, and requests \$11,000,000 for the project's construction phase. The project will address the Port's need for zero-emission charging infrastructure and deliver 145 heavy-duty EV chargers at five Port of Oakland seaport locations, including the Harbor Facilities Complex, three marine terminals, and a labor training facility. The project includes funding from Senate Bill 1 (SB1) Trade Corridor Enhancement Program (TCEP). The Port of Oakland is expected to complete construction by March 2029.

The Commission redirected \$11 million of RM3 Goods Movement and Mitigation funding from the City of Oakland Neighborhood and Railroad Safety Improvements project to the Port of Oakland Green Power Microgrid project via amendment to MTC Resolution No. 4411, Attachment A, on September 23, 2026.

Project 25 – Richmond-San Rafael Bridge Access Improvements Projects

RM3 provides \$210 million in toll funds to RM3 Project 25, the Richmond-San Rafael Bridge Access Improvements project. One allocation under this category is proposed this month:

RM3 #25.3 Bay Area Toll Authority: Cutting Boulevard Transit Improvements Project (\$5,300,000)

The Bay Area Toll Authority (BATA) is the project sponsor for RM3 Project 25.3, Cutting Boulevard Transit Improvements in Contra Costa County. The Cutting Boulevard Transit Improvements project is part of a suite of near-term strategies to improve travel options across the bridge corridor in Contra Costa County. The Cutting Boulevard Transit Improvements project will improve transit access and operations in the corridor by implementing Transit Signal Priority (TSP) and bus stop improvements along Cutting Boulevard in the City of Richmond for the Golden Gate Transit Route 580, which serves travel across the Richmond-San Rafael Bridge. BATA requests an allocation of \$5.3 million in construction funds to complete the project. Construction will begin in May 2027 and is expected to be completed by February 2028.

Agenda Item 2e-26-2169

Quarterly Report of the Executive Director's Delegated Authority Actions

Subject:

Year-End Adjustment and First Quarter Report of the Executive Director's Delegated Authority Actions.

Background:

MTC Resolution No. 3620, Revised, adopted by the Commission in March 2004, allows the Executive Director to make administrative allocations of local funds up to \$1 million, with authority to take any rescission actions requested by claimants. To keep the Commission informed on actions approved by the Executive Director, staff reports quarterly on all 'delegated authority' allocations or rescissions. Fund sources included within delegated authority include Transportation Development Act (TDA), State Transit Assistance (STA), Regional Measure 2 (RM2), Regional Measure 3 (RM3), Senate Bill 125, and other formula bridge toll funds.

In this quarter, an end of the year adjustment was made to compensate for lower actual revenues from the TDA, STA, and RM3 programs than were originally estimated in the FY 2025-26 Fund Estimate (MTC Resolution No. 4688, Revised) and RM3 Operating Program (MTC Resolution No. .4706, Revised).

The year-end adjustment for FY 2025-26 covers the period of July 2026 through September 2026 and the first quarter report for FY 2026-27 covers the period of May 2026 through September 2026. The Executive Director approved the following allocation actions summarized in the tables below and detailed in Attachments A and B:

Agenda Item 2f-26-2170

MTC Resolution No. 4604, Revised; 4740, Revised; 3989; Revised. Programming \$400,000 in Participatory Budgeting (PB) process funds to the Santa Clara Valley Transportation Authority (VTA), the County of Marin, and the City of Vallejo.

Subject:

Revisions to the Community Action Resource and Empowerment Program (CARE), One Bay Area Grant (OBAG 4) Program, and the MTC Exchange Program to award \$400,000 in Participatory Budgeting (PB) process funds to the Santa Clara Valley Transportation Authority (VTA), the County of Marin, and the City of Vallejo.

Background:

MTC's CARE Program, the successor to MTC's Lifeline Transportation Program (the agency's first program focused on improving social equity outcomes), was established in November 2023. CARE supports three program categories: (1) transportation-based community capacity power-building and engagement (Pb+E), (2) community-based transportation plan project development technical assistance (CBTP TA), and (3) participatory budgeting and implementation (PBI). Together, these three program categories support the Bay Area's [Equity Priority Communities](#) — census tracts identified by MTC and ABAG as having a higher concentration of underserved populations, such as households with low incomes and people of color —and similar locally-designated geographies in the nine-county Bay Area region. In May, the Commission programmed \$12.4 million in OBAG 4 Regional Program funds as an advanced programming action for the PBI category and also revised the CARE Program (MTC Resolution No. 4604) guidelines to support its implementation. PBI is intended to deliver smaller-scale neighborhood projects identified through community-driven planning efforts, including CBTPs and PB processes. Of the \$12.4 million programmed, \$400,000 is a regional set-aside for PB processes available to counties on an opt-in basis. PB is a democratic decision-making process in which community members decide how to spend part of a public budget. PB engages residents in identifying needs, developing project ideas, and voting on priorities, with local agencies implementing the projects that receive community support. Staff conducted outreach with County Transportation Authorities (CTAs) throughout Summer 2026 to explain program

guidelines and application requirements. Project nominations were due July 31, 2026, and MTC received three applications. Funds will be programmed to the respective CTAs.

Staff recommend programming \$400,000 in PB process funds as follows:

- Santa Clara Valley Transportation Authority (VTA): \$200,000 to support the City of Gilroy's combined PB process and Community Based Transportation Plan.
- Transportation Authority of Marin (TAM): \$125,000 to support the County of Marin's PB Cycle 2. Funding will support community engagement, outreach, and technical support..
- Solano Transportation Authority (STA): \$75,000 to support the City of Vallejo's 9th PB cycle. Funding will support community engagement, outreach, and technical support.

As part of this action, staff recommend changing the fund source for the above projects from federal STP/CMAQ to non-federal MTC exchange funds to address eligibility constraints.

Issues:

None.

Recommendations:

Refer MTC Resolution Nos. 4604, Revised; 4740, Revised; and 3989, Revised to the Commission for approval. MTC Resolution No. 3989 is also recommended for revisions under Agenda Item 2e but is included once under this Agenda Item. Resolution No. 4740 is proposed for additional revisions under Agenda Item 4a, and is included once under that item with all proposed revisions. Only items approved by the Committee will be forwarded to the Commission.

October 2026 Recommended CARE Participatory Budgeting (PB) Process Fund Programming
– Project Summaries

MTC received three applications requesting a total of \$525,000 from the \$400,000 CARE PB process fund. Staff evaluated each request based on approach, engagement plan, commitment to PB, and prior planning efforts. Recommended programming totals \$400,000.

Santa Clara Valley Transportation Authority (VTA)

Request: \$200,000

Recommendation: \$200,000

VTA proposes a combined Community-Based Transportation Plan (CBTP) and PB process in the City of Gilroy focused on transportation investments. As part of their request, VTA is seeking a two-year extension of the remaining \$600,000 in unspent OBAG Cycle 3 funds originally allocated for CBTPs. The proposal leverages \$200,000 of extended OBAG Cycle 3 CBTP funding, reserves \$352,000 for implementation of PB-selected transportation projects, and may receive additional support from the Gilroy Foundation. The tentative start date is January 2027.

County of Marin

Request: \$250,000

Recommendation: \$125,000

The County of Marin requests funding to support its PB Cycle 2, including community engagement, committee facilitation, technical assistance, and outreach. The county has committed \$2.5 million toward implementation of future PB projects and is currently in the "Brainstorm Ideas" phase through September.

City of Vallejo

Request: \$75,000

Recommendation: \$75,000

The City of Vallejo seeks support for its 9th PB cycle, with funds supporting community engagement, outreach, proposal development, and voting activities. The city has committed \$1 million for implementation of selected PB projects and is currently in the "Idea Collection" phase through October.

FY 2022-23 AND FY 2025-26

1. **BACKGROUND.** The Community Action Resource and Empowerment (CARE) Program establishes the policy framework and commitments for supporting community-led transportation enhancements in Equity Priority Communities as referenced in Plan Bay Area 2050 (PBA2050): Implementation Strategy. PBA2050 outlines the region's Long-Range Plan, incorporating equity through investments and policies that affect historically and systemically marginalized, underserved and excluded groups, including people with low incomes, people with disabilities and communities of color. Funds for the program come from a four-year period covering federal fiscal years (FY) 2022-23 through FY 2025-26. Attachment A outlines the CARE program mission, goals, objectives, funding availability, program architecture, and programming policies.

Since 2005, the Lifeline Transportation Program (LTP) supported and advanced projects identified in Community Based Transportation Plans and the Coordinated Public Transit-Human Services Transportation Plan. The LTP was redesigned to form the Community Action Resource and Empowerment Program (CARE) to address administrative fund source barriers, to better align and advance high priority community-based transportation plans with project implementation, and to strengthen community assets by better resourcing community relationship and power-building.

2. **PROGRAM MISSION AND GOALS.** The Community Action Resource and Empowerment (CARE) Program is a capacity building, technical assistance, and participatory budgeting grant program for under-resourced communities (i.e., Equity Priority Communities, Priority Populations) in the 9-county Bay Area region.

a. **Mission:**

- i. To provide under-resourced communities (i.e., Equity Priority Communities, Priority Populations) with the opportunity to advance high priority community-based, multi-sector transportation-housing-climate initiatives that improve mobility.
- ii. To support community leaders in transformative change, working effectively in diverse, ambiguous, and challenging contexts in achieving multi-beneficial transportation mobility, housing, and climate outcomes.

b. **Goals:** The goals of the program are to:

- i. Strengthen multi-sector partnerships to advance more impactful, intersectional, and innovative projects. These initiatives must:
 - Address transportation gaps and/or barriers identified in Community-Based Transportation Plans (CBTP), MTC Coordinated Public Transit-Human Services Transportation Plan, or other substantive local planning efforts involving focused outreach to low-income populations. While preference will be given to community-based plan priorities, strategies emerging from

countywide or regional welfare-to-work transportation plans, or other documented assessment of need within the designated Equity Priority Community will also be considered. Findings emerging from one or more CBTPs or other relevant planning efforts may also be applied to other low-income areas, or otherwise be directed to serving low-income constituencies within the county, as applicable.

- Support the development of projects to close the race and equity gap.
 - Invest in historically underserved communities, which may include projects prioritized in a Community-Based Transportation Planning (CBTP) or Participatory Budgeting process, or projects located within Equity Priority Communities with demonstrated community support. Equity Priority Communities are defined in Chapter 1 Plan Bay Area 2050 and described at <https://mtc.ca.gov/planning/transportation/access-equity-mobility/equitypriority-communities>;
 - Advance project readiness and further develop priority community ideas or concepts so that projects/initiatives can become competitive for local, state, and/or federal fund sources.
- ii. Build community power and engagement.
- Acknowledge and grow community leadership and knowledge.
 - Build mutually beneficial relationships for meaningful, inclusive collaboration that includes outreach, education and broad partnerships among a variety of stakeholders such as public agencies, transit operators, community-based organizations, residents, and underrepresented, overburdened groups.
- iii. Support intersectional leadership and expertise with particular focus on increasing access to funding and resources for project planning and implementation within under-resourced communities to advance Community Based Transportation Plans or Coordinated Public Transit-Human Services Transportation Plan strategies.
- Improve diverse range of transportation solutions, and in particular transportation needs specific to older adults, youth, and people with disabilities of low-income communities.

3. **PROGRAM ADMINISTRATION.** The CARE Program will be administered by MTC, supported by county transportation agencies (CTAs) or other designated county-wide agencies as follows:

County	CARE Program Liaison
Alameda	Alameda County Transportation Commission
Contra Costa	Contra Costa Transportation Authority
Marin	Transportation Authority of Marin
Napa	Napa Valley Transportation Authority
San Francisco	San Francisco County Transportation Authority
San Mateo	City/County Association of Governments
Santa Clara	Santa Clara Valley Transportation Authority and Santa Clara County
Solano	Solano Transportation Authority
Sonoma	Sonoma County Transportation Authority

This involves CTA coordination and a full commitment to a broad, inclusive public involvement process and using multiple methods of public outreach. Methods of public outreach include but are not limited to highlighting the program and application solicitation on the CTA website; sending e-mails to local community-based organizations, city departments, and non-profit organizations (particularly those that have previously participated in local planning processes); and contacting local elected officials and their staffs. Further guidance for public involvement is contained in MTC's Public Participation Plan.

For projects involving federal funds, MTC and CARE Program Liaisons must also consider fair and equitable outreach and selection of project candidates in accordance with federal Title VI requirements, i.e., funds must be distributed without regard to race, color, and national origin.

4. **FUNDING AVAILABILITY.** Fund sources for the Cycle 1 CARE Program (FY2022-23 through FY2025-26) include State Regional Early Action Planning Grant Program (REAP) 2.0 funds¹¹, State Transit Assistance (STA,) and One Bay Area Grant (OBAG), which encompasses federal Surface Transportation Program (STP), Congestion Mitigation and Air Quality Improvement (CMAQ), and other local funds available to MTC, as shown in Table A. CMAQ funds may be used for eligible projects that demonstrate air quality benefits and implement Plan Bay Area's climate initiative goals and priorities.

Funding for CARE from REAP 2.0, STA, and OBAG will be assigned a minimum of \$1M to counties, for eligible projects based on a competitive process to be conducted by MTC and in coordination with CARE Program Liaisons in each county. All funded projects must meet the eligibility requirements of the respective funding source. See Appendix 1 for detailed eligibility requirements by fund source.

***Funding targets are subject to change. See Appendix 4 for additional funding details, including a \$400,000 PB set-aside not included in the County Funding Targets

- a. Local Fund Exchanges. Project Sponsors have the discretion to use local fund exchanges to fund projects that are not otherwise eligible for the state and federal funds in Cycle 1. Project Sponsors must notify MTC about their intent to exchange funds, and MTC staff will review and approve the exchanges on a case-by-case basis. MTC staff is supportive of these fund exchanges to the extent that the exchange projects meet the spirit of the CARE Program.

5. ELIGIBLE LOCATION, RECIPIENTS/SUBRECIPIENTS

- a. Eligible Locations. All projects must be located in one or more of the following locations:
 - Equity Priority Communities (EPCs)
 - Priority Development Areas (PDAs)
 - Bay Area Air Quality Management District's (BAAQMD) Community Air Risk Evaluation Program Area or similar local designation
- b. REAP 2.0. Project sponsors selected for REAP funds through the CARE program may include: Bay Area counties, cities, a city and county, transit agencies or districts, county transportation agencies, Tribal Entities, community-based organizations, Public Housing Authorities, academic institutions, school districts, special districts, developers of Affordable Housing, or regional Housing Trust Fund (<https://www.hcd.ca.gov/docs/grants-and-funding/mpo-reap-2-0-final-guidelines.pdf>).
- c. OBAG and Exchange. Project sponsors selected for OBAG or Exchange funding through the CARE program may include: Bay Area cities, counties, transit agencies, federally recognized Tribal governments, and County Transportation Agencies (CTAs). Non-profit organizations are eligible for Exchange funds, and eligible for OBAG funds if they partner with an eligible OBAG recipient (e.g., CTA, transit operator) that is willing to serve as the recipient of the funds and pass through the funds to the non-profit, and if they have an eligible project.
- d. STA. Project sponsors selected for STA funding through the CARE program must be transit operators.

6. REAP 2.0 AND FEDERAL OBAG PROGRAMMING PROCESS. For REAP 2.0 and OBAG funds, MTC will solicit applications, in collaboration with CARE Program Liaisons.

- a. Outreach - Consistent with MTC's Public Participation Plan and FTA's Title VI Circular (FTA C 4702.1B), MTC will conduct a broad, inclusive public involvement process, and use multiple methods of public outreach in collaboration with CARE Program Liaisons.

Methods of public outreach may include, but are not limited to, highlighting the program and application solicitation on websites, and sending e-mails to all prospective applicants, including those that serve predominantly minority and low-income populations.

- b. Competitive Process. The CARE Program is a competitive grant program within the OBAG 3 and/or REAP 2.0 framework. Projects will be selected through an open, competitive process.
- c. Multi-Year Programming: The First Cycle CARE Program will cover a four-year

programming cycle, with funds available from FY2022-2023 to FY2025-2026.

7. ELIGIBLE ACTIVITIES

- a. Eligible Categories: Projects must advance “Community Based Transportation Plan” projects or strategies within “MTC’s Coordinated Public Transit-Human Services Transportation Plan” (or other substantive local planning efforts involving focused outreach to low-income populations) through:
 - i. Category 1: CBTP project development technical assistance
 - ii. Category 2: Participatory Budgeting Process, CBTP Planning, and Implementation of ~~or Advancing~~ High-priority neighborhood level projects through similar extensive outreach/engagement process
 - iii. Category 3: Community power-building and engagement initiatives
- b. Eligible capital projects. Eligible capital projects, consistent with requirements of funding sources, may include (but are not limited to); bus stop improvements, including accessibility enhancements, the provision of bus shelters, benches, lighting, or sidewalk improvements at or near transit stops; art and cultural placemaking, rehabilitation, safety or modernization improvements; non-transit projects such as bike lanes, complete streets, streetscape improvements, safety improvements, crosswalk improvements; or other enhancements to improve transportation access for residents of low-income communities or people with disabilities. See Appendix 1 for additional details about eligibility by funding source.
- c. Projects must be eligible for STP, ~~or~~ CMAQ, ~~or~~ REAP, or STA.
 - i. For STP or CMAQ funds, refer to details in 23 USC Sec. 133 and at <https://www.fhwa.dot.gov/fastact/factsheets/stbgfs.cfm> (STP), and in 23 USC Sec. 149 and at https://www.fhwa.dot.gov/environment/air_quality/cmaq/policy_and_guidance/ (CMAQ); Consistent with Plan Bay Area 2050, available at <https://planbayarea.org/>; and meet all OBAG 3 programming policy requirements described in these guidelines and in MTC Resolution 4505 or 4740. Note: Projects selected for local funds within the OBAG framework do not need to meet STP/CMAQ eligibility requirements.
 - ii. For REAP funds, see Section 204 of REAP 2.0 Guidelines: <https://www.hcd.ca.gov/sites/default/files/docs/grants-and-funding/MPO-REAP-2-0-Final-Guidelines.pdf>. Activities generally may include: Technical assistance, planning, staffing, consultant needs (CARE/CBTP or Coordinated Plan related). Projects must support one or more of the following REAP 2.0 objectives:
 - a) Accelerating infill development that facilitates housing supply, choice, and affordability through various planning programs, or services;
 - b) Realizing multimodal communities through programs, plans, and implementation actions shifting travel behavior by reducing driving through programs, ordinances, funds, and other mechanisms;
 - c) Shifting travel behavior through reducing driving; and,
 - d) Increasing transit ridership through implementation actions, and planning.

- iii. For exchange funds, projects must meet CARE goals.
- iv. For STA funds, projects must be capital transit improvements that meet CARE goals. More information on eligible uses may be found in the Caltrans Transportation Development Act Guidebook: <https://dot.ca.gov/programs/rail/transportation-development-act>.

8. LOCAL MATCHING REQUIREMENTS. The CARE Program requires a minimum local match of 11.47% of the total project cost for projects awarded federal funds.

a. Exceptions to the local match requirement:

- i. Projects selected for Community Power-Building and Engagement will be funded with local funds and do not require a local match.
- ii. Exchange funds are not subject to the local match requirement.

b. Sources of local match. Project sponsors may use certain state, or local funding sources (Transportation Development Act, operator-controlled State Transit Assistance, local sales tax revenue, etc.) to meet the match requirement. In-kind contributions such as the market value of in-kind contributions integral to the project may be counted as a contribution toward local share.

Toll Credits are not an eligible source of local match for the CARE Program. However, for capital projects, sponsors that fully fund the project development or Preliminary Engineering (PE) phase with non-federal funds may use toll credits in lieu of a match for the Construction (CON) phase. For these projects, sponsors must still meet all federal requirements for the PE phase.

9. COORDINATED PLANNING. In the Bay Area's Coordinated Plan, through community outreach and engagement, MTC continues to identify the transportation needs of individuals with disabilities, older adults, and people with low incomes, and to provide strategies for meeting those local needs. Therefore, projects funded with CARE Transportation Program funds should be consistent with the transportation needs, proposed solutions, and enhanced coordination strategies presented in the Coordinated Plan.

Mobility management is among key coordination strategies recommended in the plan. The designation of and funding for countywide mobility managers is identified as an essential component of that strategy. For more information on the strategies within the Coordinated Plan, please see: mtc.ca.gov/coordinatedplan.

10. GRANT APPLICATION. To ensure a streamlined application process for project sponsors, a universal application form will be used. The application and guidelines are informed by input from the "call for project ideas" process. If a project proposal is a universally, regionally applied project, the project proposal could be elevated to a regional project.

- a. Applications for projects eligible for CMAQ funds must also provide inputs for air quality improvement calculations, using the Supplemental Air Quality Inputs v.1.1 template.

11. APPLICATION EVALUATION. Per OBAG 3 federal funding and REAP 2.0 guidelines, MTC evaluates and selects projects. MTC staff may solicit input from a panel of stakeholders, reflecting diverse perspectives to inform and advise MTC decision-making.

- a. Evaluation criteria. Standard evaluation criteria will be used to assess projects. The six criteria include (1) project need/goals and objectives, (2) community-identified priority, (3) implementation plan and project management capacity, (4) coordination and program outreach, (5) cost-effectiveness and performance indicators, and (6) project budget/sustainability. MTC will establish the weight to be assigned for each criterion in the assessment process.
- b. Selection criteria considerations. In addition to the evaluation criteria, projects will be selected with considerations to the following: (1) geographic diversity; (2) need, with a priority on lower-capacity communities; and (3) range of project types: diverse range of project types, interdisciplinary approach, and focus on equity.

See Appendix 2 for the detailed standard evaluation criteria.

See Appendix 3 for detailed evaluation criteria for CBTP Project Development Technical Assistance.

See Appendix 4 for detailed evaluation criteria for Participatory Budgeting and Implementation.

12. POLICY BOARD ADOPTION

- a. Project sponsor resolution of local support. As part of the grant award, project sponsors will be required to adopt a resolution of local support. The resolution shall state that the local project sponsors understand and agree to meeting all project delivery, funding match and eligibility requirements, and obligation and reporting deadlines and requirements. MTC will provide a resolution of local support template. This requirement only applies to project sponsors awarded federal funds.

13. PROJECT DELIVERY. All projects funded under the county programs are subject to the following MTC project delivery requirements:

- a. REAP 2.0. If selected for REAP 2.0 funding, project sponsors must expend the CARE REAP 2.0 funds by December 31, 2026, or earlier, as required by the individual CARE program. The December deadline is established by state statute (Chapter 3.15 of California Health and Safety Code sections 50515.06 to 50515.10) and is the date by which MTC must fully expend its REAP 2 grant.
- b. OBAG 3. If selected for OBAG 3 funding, project sponsors must obligate CARE Program OBAG 3 funds by **January 31, 2027**, per OBAG 3 program deadline. Note: Project awards will be cancelled, and funds will be reverted for use in future CARE Program grants if projects are not obligated by January 31, 2027.
- c. OBAG 4. If selected for OBAG 4 funding, project sponsors must obligate CARE Program OBAG 4 funds by **September 30, 2031**, per OBAG 4 program deadline. Note: Project awards will be cancelled, and funds will be reverted for use in future CARE Program grants if projects are not obligated by September 30, 2031.

14. PROJECT OVERSIGHT. All project budget and scope of work changes must be approved by MTC CARE staff. All scope changes must be fully explained and must demonstrate consistency with CARE Program goals. Project sponsors must have a record of consistently meeting state and federal timely use of funds deadlines and requirements or demonstrate/identify revised/new internal processes to ensure they will meet funding deadlines and requirements moving forward at the time of project nomination.

See Appendix 1 for detailed accountability and reporting requirements by funding source.

15. PERFORMANCE MEASURES. As part of the Call for Projects, applicants will be asked to establish project goals, and to identify basic performance indicators to be collected in order to measure the effectiveness of the CARE projects. At a minimum, performance measures projects could include documentation of outcome-based metrics provided with the funding, and a qualitative summary of procedures employed for the project. For capital projects, project sponsors are responsible for establishing milestones and reporting on the status of project delivery. Project sponsors are responsible for satisfying all reporting requirements, as referenced in Appendix 1. Project sponsors will forward reports containing performance measures to MTC for review and overall monitoring of the CARE Program.

16. FUND ADMINISTRATION

- a. OBAG. Project sponsors are responsible for entering OBAG funded projects into MTC's Fund Management System (FMS) for inclusion in the Transportation Improvement Program (TIP). Grantees will access their funds through the Caltrans federal-aid process.
- b. REAP 2.0. Project sponsors selected for REAP 2.0 funds are responsible for complying with fund administration and reporting requirements as stipulated in funding agreements with MTC or another pass-through agency. Eligible entities for REAP include community-based organizations (CBO), which can be their own project sponsor. MTC would enter into a funding agreement with the CBO directly.
- c. STA. Project sponsors selected for STA funds will access funds through the existing MTC claims process. Transit agencies receiving STA funds for a CARE project will incorporate the project into their annual claim workbook or amend their existing claim workbook if already submitted.

17. COMPLIANCE WITH FEDERAL REQUIREMENTS.

- a. Project Sponsor Responsibilities. OBAG applicants are required to comply with MTC's Regional Project Delivery Policy, MTC Resolution No. 3606 and all applicable federal requirements.

Appendix 2 CARE Program Cycle 1 Standard Evaluation Criteria

The following standard evaluation criteria are intended to provide consistent guidance in prioritizing and selecting projects to receive CARE Program funds. MTC, in consultation with other stakeholder representatives, will consider these criteria when selecting projects, and establish the weight to be assigned to each of the criterion. MTC staff will review the proposed county program criteria to ensure consistency and to facilitate coordination among county programs.

- a. Project Need/Goals and Objectives:** Applicants should describe the unmet transportation need or gap that the proposed project seeks to address and the relevant planning effort that documents the need. Describe how project activities will mitigate the transportation need. Project application should clearly state the overall program goals and objectives and demonstrate how the project is consistent with the goals of the CARE Program.
- b. Community-Identified Priority:** Priority should be given to projects that directly address transportation gaps and/or barriers identified through a Community-Based Transportation Plan (CBTP), MTC's Coordinated Public Transit-Human Services Transportation Plan, or other substantive local planning effort involving focused inclusive engagement to low-income populations. Applicants should identify the CBTP, Coordinated Plan or other substantive local planning effort, as well as the priority given to the project in the plan.

Other projects may also be considered, such as those that address transportation needs identified in countywide or regional welfare-to-work transportation plans, or other documented assessment of needs within designated Equity Priority Communities. Findings emerging from one or more CBTPs or other relevant planning efforts may also be applied to other low-income areas, or otherwise be directed to serving low-income constituencies within the county, as applicable. Equity Priority Communities are defined in Chapter 1 Plan Bay Area 2050 and described at <https://mtc.ca.gov/planning/transportation/access-equity-mobility/equity-priority-communities>.

- c. Implementation Plan and Project Management Capacity:** For projects seeking funds for capital purposes, applicants must provide an implementation plan, milestones, and timelines for completing the project.

Priority should be given to projects that are ready to be implemented in the timeframe that the funding is available.

Project sponsors should describe and provide evidence of their organization's ability to provide and manage the proposed project, including experience serving low-income persons, and experience as a recipient of state or federal transportation funds.

- d. Coordination and Program Outreach:** Proposed projects will be evaluated based on their ability to coordinate with community stakeholders. Applicants should clearly identify project stakeholders, and how they will keep stakeholders involved and informed throughout the project. Applicants should also describe how the project will be marketed and promoted to the public.
- e. Cost-Effectiveness and Performance Indicators:** The project will be evaluated based on the applicant's ability to demonstrate that the project is the most appropriate way in which to address the identified transportation need and is a cost-effective approach. Applicants must also identify clear, measurable outcome-based performance measures to track the effectiveness of the project in meeting the identified goals. A plan should be provided for ongoing monitoring and evaluation of the project, as well as steps to be taken if original goals are not achieved.

ABSTRACT

Resolution No. 3989, Revised

This resolution establishes the procedures governing the MTC Exchange Program. This resolution supersedes MTC Resolution No. 3018.

Attachment B was revised on October 26, 2011 to provide \$376,000 in Exchange Program funding to the intertribal Electric Vehicle project.

Attachments B and C were respectively revised on February 26, 2014 to include \$10 million in Exchange Program funding for Transit Oriented Affordable Housing (TOAH), and update final balances of the initial STP Exchange Program (Resolution 3018) to reflect final project close out.

Attachments A and B were revised on December 21, 2016 to program \$1.1 million to the Bay Bridge Forward Commuter Parking Initiative and update the name of the Transit Oriented Affordable Housing Program.

Attachments A and B were revised on July 26, 2017 to program \$8.2 million to the Regional Priority Conservation Area (PCA) program and \$2.8 million to the Regional Active Operational Management Program. An additional \$1 million in exchange funds will be committed to a specific project or program through a future Commission action. This action and associated agreement and programming actions are contingent upon California Transportation Commission (CTC) approval of the amendment to the baseline agreement for the Marin Sonoma Narrows project to accept STP/CMAQ funds rather than local funds.

Attachment B was revised on February 28, 2018 to program \$10 million to the Bay Area Preservation Pilot; \$1,024,000 to Richmond's Bike Share Capital and Outreach project; \$826,000 for the joint Transportation Authority of Marin/Sonoma County Transportation Authority (TAM/SCTA) Bike Share Capital and Outreach project along the SMART Corridor; and redirect \$2,800,000 from Regional Active Operational Management to the Bay Bridge Forward Commuter Parking Initiative project.

Attachment B was revised on March 28, 2018 to program \$30,000 to the Bay Area Greenprint Priority Conservation Area (PCA) Improvements.

Attachments A and B were revised on November 28, 2018 to add the SCVTA SR 85 Transit Guideway Study and the CCTA I-680 NB HOV/Express Lane exchange agreements, and to program \$4,000,000 in Exchange funds to the following projects: \$619,000 to CCTA for Innovative Deployment for Enhanced Arterials; \$621,000 to the city of Walnut Creek for innovative Deployment for Enhanced Arterials; \$500,000 to the city of Richmond for the Richmond-San Rafael Bridge Bikeway Access; \$1,160,000 to MTC for Richmond-San Rafael Bridge Forward; and \$1,100,000 to MTC for Napa Valley Transportation Demand Management Strategies.

Attachment B was revised on March 27, 2019 to change the recipient of the Concord IDEA project from CCTA to the City of Concord and reduce the funding from \$619,000 to \$589,000; and reduce the funding amount for the MTC Richmond-San Rafael Bridge Forward project from \$1,160,000 to \$1,046,000; and redirect these funds to a new project with MTC as the recipient for the Concord IDEA project for \$144,000. The matching funds for the Concord IDEA project as identified in MTC Resolution 4357, are included within the \$144,000 amount. These changes result in no net change to total funds committed to-date.

Attachment A was revised on June 26, 2019 to cancel the \$1,200,000 exchange agreement with the SCVTA for the SR 85 Transit Guideway Study as the funds provided through the exchange are no longer needed.

Attachment B was revised on September 25, 2019 to reflect MTC as the direct recipient of exchange funds for the Concord and Walnut Creek IDEA projects; funds will be provided on a reimbursement basis to each project sponsor pursuant to their respective funding agreements with MTC.

Attachment B was revised on November 20, 2019 to program \$6,023,000 to 13 projects as part of the Priority Conservation Area (PCA) Grant program; funds will be provided on a reimbursement basis to each project sponsor pursuant to their respective funding agreements with MTC.

Attachment B was revised on November 20, 2020 to program \$647,000 to four projects as part of the Priority Conservation Area (PCA) Grant program. For the Yerba Buena Island Multi-Use Pathway, which provides access to the San Francisco-Oakland Bay Bridge, \$1 million of federal OBAG 2 funds are being provided at this time for cash flow purposes. The Bay Area Toll Authority will repay non-federal funds to the MTC Exchange Program within three years. MTC's funds for the Twin Peaks trail will be provided to the Coastal Conservancy for management of the two fund sources for this project. Because the Conservancy is a state entity, the funds will be provided as an up-front grant rather than on a reimbursement basis. Funds for projects other than the Twin Peaks Trail will be provided on a reimbursement basis to each project sponsor pursuant to their respective funding agreements with MTC.

Attachment A was revised on May 26, 2021 to add the Transportation Authority of Marin's (TAM's) US 101 Marin-Sonoma Narrows (MSN) High-Occupancy Vehicle (HOV) Lanes project for \$75,651,097.

Attachment A and B were revised on March 23, 2022 to add the \$500,000 exchange agreement with Midpeninsula Regional Open Space District for programming an equal amount of federal funds to VTA's Highway 17 Bicycle/Pedestrian Trail and Wildlife Crossing project; and to remove the \$251,000 funding commitment for Albany's Albany Hill Access Improvements project, as the sponsor will not be moving forward with the project scope as originally proposed.

Attachment A was revised June 22, 2022 to add the Capitol Corridor Joint Powers Authority's (CCJPA's) State Route 84 Ardenwood Intermodal Bus Facility project for \$100,000, as part of a fund exchange agreement with CCJPA.

MTC Resolution Nos. 4742, Revised; 4771, Revised; 4772, Revised; 4773, Revised; 4774, Revised; 4775, Revised; and 4783, Revised

Subject:

The proposed action revises the FY2026-27 MTC Fund Estimate; revises the FY2026-27 State Transit Assistance (STA) State of Good Repair (SGR) Project List; and allocates \$184 million in FY2026-27 Transportation Development Act (TDA), State Transit Assistance (STA), Regional Measure 2 (RM2), Regional Measure 3 (RM3), and Assembly Bill (AB) 1107 funds to three transit operators to support transit operations and capital projects in the region.

Background:

State Transit Assistance (STA) and State of Good Repair (SGR) Actual Revenues

Final FY2025-26 STA revenues for the Bay Area totaled \$275 million, or 5% below the initial State Controller's Office (SCO) August 2025 estimate of \$290 million. STA revenues are derived from a statewide tax on diesel fuel, for which prices had been in decline for a number of years. However, fuel prices have increased significantly in recent months due to geopolitical events, surpassing prices from the previous benchmark in June 2022 according to data from the US Energy Information Administration. As a result, the SCO has revised their estimate from January 2026 of \$192 million up to \$352 million for FY2026-27 per the Enacted Budget.

SGR revenues are derived from state vehicle registration fees and are expected to total \$51 million in FY2026-27 based on the latest SCO forecast from August 2026. A summary of Bay Area STA and SGR revenues is included in the table below:

STA and SGR Revenues by Year, Formula Component

Formula Component	FY24-25 STA	FY25-26 STA	FY26-27 STA (Estimated)	FY24-25 SGR	FY25-26 SGR	FY26-27 SGR (Estimated)
Revenue-Based	\$213	\$202	\$257	\$36	\$37	\$37
Population-Based	\$77	\$73	\$94	\$13	\$13	\$14
Total	\$291	\$275	\$352	\$49	\$50	\$51

Dollars in millions, note that amounts may not sum due to rounding

Expiration of “Hold Harmless” Provision for Revenue-Based Formula

Over half of the STA and SGR revenues are apportioned through a formula using each operator’s share of qualifying revenues across the state. “Qualifying revenues” are an operator’s fares and local operating funds (such as local sales tax, parking, and advertising) and are the basis the State Controller uses to distribute the revenue-based share of STA funding among the operators. The revenue-based formula was frozen through an amendment to the Public Utilities Code since the onset of the pandemic to mitigate associated impacts on transit revenues. On July 1, 2026, the “hold harmless” provision that maintained the frozen formula expired. As such, the revenue estimates for FY2026-27 provided by the SCO in August use an updated formula based on qualifying revenues from FY2024-25. While there is a mix of increases and decreases in funding levels for different operators in the region, BART and SFMTA will receive a significantly lower share of the statewide revenue due to substantial decreases in their fare revenues since the pandemic (see table below for details by operator).

STA Revenue-Based Actuals and Estimates by Operator, Year

Revision to the FY2026-27 Fund Estimate and State of Good Repair (SGR) Project List

This month, staff recommend revisions to the FY2026-27 MTC Fund Estimate (MTC Resolution No. 4742) to reflect actual receipts for the period of FY2025-26, provide the latest revenue estimates for FY2026-27, and update the distribution of the revenue-based component of the

STA and SGR program. As a result of the revisions to the FY2026-27 Fund Estimate, staff also recommend revisions to the FY2026-27 SGR program (MTC Resolution No. 4783) to reflect the latest revenue estimates for SGR revenue-based funds.

FY2025-26 Allocation of TDA, STA, RM2, RM3, and AB 1107 Funds

This month's proposed actions continue the annual allocation process of these funds for FY2026-27. Three entities are requesting TDA, STA, RM2, RM3, and AB 1107 allocations this month that exceed the \$1 million Delegated Authority limit. Allocation requests that are less than \$1 million are approved separately through the Executive Director's Delegated Authority process.

The proposed allocation amounts are based on the programming levels identified in the FY2026-27 Fund Estimate (MTC Resolution 4742), the RM2 Operating Program (MTC Resolution 4757), and RM3 Operating Program (MTC Resolution 4758). The proposed allocations are summarized in the following table:

Allocation Amounts by Entity¹

Entity	TDA (Res. 4771)	STA (Res. 4772)	RM2 (Res. 4773)	RM3 (Res. 4774)	AB1107 (Res. 4775)	Grand Total
SFMTA	\$46.3	\$68.1	\$2.1	\$2.9	\$52.5	\$171.9
SMART		\$5.0				\$5.0
WestCAT	\$2.2			\$4.4		\$6.6
Total	\$48.6	\$73.6	\$2.1	\$7.3	\$52.5	\$183.6

Dollars in millions, note that amounts may not sum due to rounding

These funds comprise a significant share of the revenue for agencies' operating budgets.

Information regarding the FY2026-27 operating budgets and current and future operations for the transit operators included in the list above is provided in Attachment A.

Issues:

As noted above, the expiration of the state "hold harmless" provision for Revenue-Based STA and SGR funds results in a lower share of statewide funds for BART and SFMTA. While the projected increase in total STA funding will minimize the relative impact this fiscal year,

¹ Includes allocations to be approved in the resolution listed above, the details of which are provided in Attachment A, including allocations for transit capital or planning and administration. Not inclusive of allocations approved by Executive Director's Delegated Authority as allowed by MTC Resolution No. 3620, Revised

affected Bay Area operators will continue to receive lower shares in future years if their qualifying revenues remain below pre-pandemic levels compared to other operators statewide.

Recommendations:

San Francisco Municipal Transportation Agency / SFMTA

FY 2025-26 Operating Budget	\$1.45 billion
Increase in Budget compared to FY 2025-26	4.45%

Total Proposed FY 2026-27 Operating Allocation ¹	\$172.6 million
Proportion of Operating Budget Funded with Allocations	11%

Budget and Operating Highlights

The San Francisco Municipal Transportation Agency (SFMTA) provides transit service to the City and County of San Francisco using five different modes: motorcoach, trolley coach, light rail, cable car, and historic streetcar. Serving a mostly urban market within the city’s 49 square miles of land area, SFMTA’s service area has remained consistent and includes several lines of service to the northern reaches of its neighboring county of San Mateo.

SFMTA is continuing its positive trend in ridership growth. FY 2025-26 saw average weekday boardings of 534,404 and average Saturday boardings of 390,496, which are an improvement over FY 2024-25. With the implementation of Next Generation Clipper, SFMTA is implementing daily fare capping and simplifying ticketing for Cable Car to include only the single ride cable car ticket and the new Muni Plus, which offers riders a day pass for unlimited cable car and other Muni rides, to encourage ridership and respond to changing use patterns.

¹Includes allocations made through Executive Director’s Delegated Authority as allowed by MTC Resolution No. 3620, Revised. Any allocations made by Delegated Authority will be reported as part of the quarterly Delegated Authority update to the Commission. Excludes allocations made for transit capital or planning and administration purposes

SFMTA's Board of Directors adopted a two-year fixed budget, covering FY 2026-27 and FY 2027-28. A major goal of this budget is to preserve service while reducing costs. Consistent with ongoing efforts to reduce costs and become more efficient, the FY 2026-27 budget deleted 97 vacant positions in addition to the more than 500 positions deleted in the FY 2025-26 budget. Because the deleted positions were vacant, operational impacts are limited, and the positions are not added back in the FY 2027-28 budget. On top of deleting positions, this budget also increased the efficiency of operator scheduling, achieving more than \$1.6 million in savings without reducing transit service or frequency.

The budget also included ongoing non-labor reductions of more than \$20 million per year as a result of renegotiating existing contracts, reducing consulting budget, overhauling SFMTA's rents and leases management, and reducing ongoing security costs by making one-time capital investments in hardened security hardware. SFMTA's operating budget shows some growth from FY 2025-26, with increases in salaries and fringe benefits per cost-of-living wage increases in the Memoranda of Understanding negotiated across all City unions.

Budget and Operating Highlights

Sonoma-Marín Area Rail Transit (SMART) is a two-way passenger and freight rail system that services Marin and Sonoma County. SMART serves a regional rail market for North Bay cities and intercounty travel, as well as providing connections to ferry service at Larkspur Station due to proximity to the Golden Gate Ferry's Larkspur Ferry Terminal. Currently, SMART operates 44 one-way trips each weekday, which includes an additional 6 trips as part of the Marin-Sonoma Coordinated Transit Service (MASCOTS) Plan implemented in April 2026.

Fare revenue and STA funding make up a small portion of the total operating budget for SMART at 6.4% and 12.4% respectively. Measure Q, a sales and use tax of ¼ cent, is the primary revenue source for SMART making up an estimated 62.4% of estimated revenue for budgeted service in FY2026-27. In June 2026, voters in Marin and Sonoma Counties approved Measure B, extending the current SMART sales tax for another 30 years following the expiration of Measure Q at the close of FY2028-29.

¹ Includes allocations made through Executive Director's Delegated Authority as allowed by MTC Resolution No. 3620, Revised. Any allocations made by Delegated Authority will be reported as part of the quarterly Delegated Authority update to the Commission. Excludes allocations made for transit capital or planning and administration purposes.

Overall, SMART's operating budget shows an increase of 6.5%, which is attributed to the service changes detailed in the Marin-Sonoma Coordinated Transit Service (MASCOTS) plan and additional full-time staff.

Ridership continues year-over-year growth reaching a milestone of over one million passengers in FY2024-25 and in FY2025-26. Ridership growth is bolstered by the operator's free fare program for youth and seniors which make up 43% of SMART riders. The operator's forecast shows a growth of 13.1% in ridership for FY2026-27 and a 15.1% growth in fare revenue. To note, a significant portion of this ridership growth is anticipated to result from the additional service provided in the MASCOTS plan.

In FY2024-25, guided by the Citizen's Oversight Committee, SMART approved its Strategic Plan 2025-2030 which identified strategies to revolving around ridership, extensions, and pathways. In FY 2026-27, as part of this plan, SMART is renewing its fare-free pilots for youth and seniors, continuing the design phase of the Healdsburg extension, participating in Highway 7 corridor activities to incorporate East/West rail, and advancing 3 key funded segments of the SMART owned pathway.

Budget and Operating Highlights

The Western Contra Costa Transit Authority, or WestCAT, provides service in the 20 square mile area along the Interstate 80 corridor that includes the cities of Richmond, San Pablo, El Sobrante, Pinole, Hercules, Rodeo, and Crockett. WestCAT operates seven local fixed routes, four express routes, one commuter route to San Francisco (Lynx), five demand response routes and two regional routes that provide connection to Alameda and Solano counties via Capitol Corridor and BART. The operator's fleet is comprised of 46 diesel low floor buses, three double-decker buses used for transbay service, and 12 paratransit vehicles (10 standard conversion vans and two sedans).

WestCAT's FY2026-27 operating budget proposes \$16.9 million in total operating costs, representing a 4.6% increase from the previous fiscal year. This increase is equally distributed across operational costs contracted through MV Transportation, vehicle maintenance expenses, and general administration.

Fare revenue projections for the fiscal year are \$1.4 million or 8.2% of total revenues.

WestCAT's primary revenue sources are TDA, STA, and Measure J funds; a half percent sales

¹Includes allocations made through Executive Director's Delegated Authority as allowed by MTC Resolution No. 3620, Revised. Any allocations made by Delegated Authority will be reported as part of the quarterly Delegated Authority update to the Commission. Excludes allocations made for transit capital or planning and administration purposes

tax approved by voters in Contra Costa in 2004 and extended for another 25 years after the original expiration year of 2009. This sales tax measure allows WestCAT to be less dependent on fare revenues and maintain low fares.

Changing travel demands and work-from-home trends have impacted how transit is utilized in WestCAT's service area resulting in slower ridership recovery than peer transit operators in Contra Costa.

2. STA Formula Program
 - Distribution change
3. Allocations
 - Proposed funding to SFMTA, SMART, and WestCAT

Fund Estimate Recap

- Every year, MTC prepares a Fund Estimate to identify how much funding will be available in the upcoming fiscal year from sources including:
 - Transportation Development Act (TDA) – *statewide sales tax*
 - State Transit Assistance (STA) – *statewide diesel sales tax*
 - Assembly Bill 1107 – *regional sales tax in Alameda, Contra Costa, and San Francisco counties*
- The Fund Estimate is informed by state and county revenue projections and reflects latest macroeconomic and demographic trends
- The Fund Estimate is typically amended twice per year to incorporate the latest revenue information from the state
- Transit agencies, County Transportation Agencies, and MTC use the Fund Estimate for budget development and to request allocation of funds

STA Formula Programs

State Transit Assistance (STA) formula splits statewide revenue 50/50 between a Revenue-Based program and a Population-Based program

Revenue-Based funds flow to transit operators via MTC based on their qualifying local revenue

Population-Based funds flow to the Bay Area based on our ~19% share of the state's population and are programmed by MTC

FY 2025-26 STA actual revenues 5% lower than initial State Controller's Office Estimate in August 2025

Initial FY 2026-27 forecast from January increased by \$51.1 million for total of \$416 million for the Bay Area

STA Revenue-Based Formula Funding Distribution

Background

Formula had been frozen since 2020, to reduce impacts of the pandemic on transit revenues

Current

“Hold Harmless” provisions expired in July 2026

Reduction in regional share of statewide revenues

- SFMTA and BART shares reduced
- AC Transit, VTA, Golden Gate, Caltrain, and SF Bay Ferry shares increased

Agenda Item 4a-26-2173

MTC Resolution No. 4740, Revised

Subject:

Revisions to the One Bay Area Grant (OBAG 4) Regional Program, including recommended approval of revised program categories and program funding amounts.

Background:

In January 2026, the Commission adopted the OBAG 4 project selection and programming framework for investing approximately \$820 million in federal Surface Transportation Block Grant Program (STP) and Congestion Mitigation and Air Quality Improvement Program (CMAQ) funds from federal fiscal year (FY) 2026-27 through FY 2029-30.

The OBAG 4 framework includes a commitment of approximately \$100 million to support transit operations through the Senate Bill (SB) 125 framework, with the remaining \$720 million capacity divided equally between the county program (\$360 million) and regional program (\$360 million) components.

Implementation Progress

For the OBAG 4 County Program, CTAs are currently evaluating project applications and developing project nominations for submission to MTC in October 2026. County Program project nominations will be evaluated by MTC staff and considered by the Commission in early 2027.

In September 2026, staff brought an informational update on development of the OBAG 4 Regional Program to this committee, including a summary on engagement and collaboration with partners to develop the program, revised investment categories, and implementation strategies.

This month, staff recommend approval of the proposed OBAG 4 Regional Program categories, programs, and funding amounts.

Regional Program Framework

The proposed OBAG 4 Regional Program would invest approximately \$360 million in programs and services that are most effective when planned, funded, or delivered across multiple jurisdictions. The proposed framework is intended to complement the County Program by addressing shared challenges, supporting common tools and services, and providing targeted investments and technical assistance that help local agencies advance the Bay Area's housing, transportation, climate, and safety goals as defined in Plan Bay Area 2050+.

The proposed Regional Program is organized around three categories that reflect how investments are delivered and the role MTC and partner agencies play in implementation, as shown in **Table 1** below.

Table 1. Regional Investment Framework

Program Category	Focus	OBAG 4 Amount
Community Investment	Place-based local implementation with regionwide scale and technical support	\$188 million
Network Performance	Improving multimodal corridors, transit transformation, and system reliability	\$115 million
Shared Information and Services	Shared tools, services, and information provided regionwide for improved efficiency and access	\$57 million
Regional Program Total		\$360 million

Taken together, more than half of the proposed Regional Program, approximately \$182 million, would be distributed through grants and technical assistance opportunities that directly support local jurisdictions, transit operators, and partner agencies. The remaining investments would support collaborative Bay Area initiatives and shared services that are difficult to deliver effectively through individual jurisdictions acting alone. **Attachment A** summarizes the proposed Regional Program categories and program amounts and highlights the programs with proposed local grant opportunities. Please note that, based on recent feedback from CTA partners, there was an adjustment made to program amounts to increase the Multimodal Corridors Planning from \$4 million to \$5 million, reducing the Multimodal Corridor Capital amount from \$35 million to \$34 million.

Next Steps

Following adoption, staff will continue engagement around and development of the Regional Program, with calls for projects beginning early 2027.

Program Development and Collaboration Opportunities

MTC staff will work closely with partner agencies as the OBAG 4 Regional Program moves from development into implementation. Key areas of work over the next year include continued coordination with CTAs, transit agencies, and other partners, development of regional strategies, and preparation for future funding opportunities.

- Regional TDM: This fall, MTC and CTAs will launch the development of the Regional TDM Roadmap and establish a co-project management structure to guide the effort. The TDM Roadmap will identify regional TDM priorities and help coordinate future investments and activities regionwide.

- Transportation Electrification: Staff are developing the Transportation Electrification Planning & Program Strategy, which is anticipated to be brought to the Commission in early 2027. The strategy will help coordinate investments and implementation activities across partner agencies and inform future funding opportunities under the OBAG 4 Transportation Electrification program.
- Multimodal Corridors: Staff will engage with CTAs, Caltrans, and local agencies and transit operators beginning in early 2027 to identify corridor priorities, refine planning and operational needs, and explore opportunities for joint project development and co-management.
- Transit Transformation: This fall, staff will continue outreach with transit operators, CTAs, and local jurisdictions on the draft Transit Priority Network, which will inform future Bus Accelerated Infrastructure Delivery Program (BusAID) funding opportunities. Staff will also work with regional partners and a wayfinding consultant to develop implementation timelines for pilot Mapping and Wayfinding locations. Staff anticipate presenting the final Transit Priority Network and the 2027 BusAID funding guidelines to the Regional Network Management (RNM) Committee and Commission in Spring 2027.
- Regional Safety/Vision Zero: After coordinating with local jurisdictions in the summer, staff are now coordinating with Caltrans to select quick-build projects related to the Safe Streets and Roads for All (SS4A) federal grant that OBAG is supplementing. Staff will also present a briefing on the Regional Safety/Vision Zero program to the Committee in the fall, which will include a program update, current work priorities, and a plan for scaling safety implementation through the OBAG 4 Regional Program informed by extensive engagement with local partners.

Staff anticipate returning to various MTC Committees and the Commission throughout 2027 with updates and actions related to implementation of the Regional Program, including approval of key planning and policy frameworks, development of program guidelines, and future funding recommendations.

Call for Projects Coordination

In response to partner feedback identifying a need for greater transparency, coordination, and predictability around OBAG 4 Regional Program funding opportunities, staff will implement several improvements to the communication and coordination of calls for projects. These efforts include enhancing OBAG web resources and funding opportunity information; regularly sharing updates regarding anticipated funding opportunities and guidelines development through partner working groups; and strengthening internal coordination and advance planning for project solicitations.

Attachment B includes a list of local grant opportunities and anticipated timing of calls for projects for 2027.

Issues:

None.

Recommendations:

Refer MTC Resolutions No. 4740, Revised to the Commission for approval. MTC Resolution No. 4740 is also recommended for revisions under Agenda Item 2f but is included once under this Agenda Item. Only applicable items approved by the Committee will be referred to the Commission.

ABSTRACT

Resolution No. 4740, Revised

Adoption of the project selection and programming policies for the fourth round of the One Bay Area Grant program (OBAG 4). This resolution supersedes MTC Resolution No. 4678.

The OBAG 4 project selection and programming policies outline the project categories that are to be funded with various fund sources, including federal funding assigned to MTC for programming, to implement the Regional Transportation Plan (*Plan Bay Area 2050+*) and to be included in the federal Transportation Improvement Program (TIP) for the OBAG 4 funding delivery period.

The resolution includes the following attachments:

- Attachment A – OBAG 4 Project Selection and Programming Policies
- Attachment B – OBAG 4 Project Lists

With the adoption of the project selection and programming policies, Attachments B-1 and B-3 program \$101,164,422 in Transit Operations Program funds to various projects as previously programmed under MTC Resolution No. 4678, \$45,000,000 in Regional Program funds for a Transit-Oriented Communities (TOC) Set-Aside program, and \$5,000,000 in Regional Program funds for a North Bay Augmentation.

On February 25, 2026, Attachments A, B-1, and B-2 were revised to incorporate additional policies, program \$41,000,000 in County Program funds to MTC for base planning and implementation activities by various County Transportation Agencies (CTAs), and program \$40,000,000 in Regional Program funds to MTC for planning and implementation activities.

On October 28, 2026, Attachment B-1 was revised to reflect the approval of the OBAG 4 Regional Program, including refined program categories and funding amounts, and to change the fund source from STP/CMAQ to MTC Exchange for \$400,000 of funding previously programmed to the CARE Participatory Budgeting and Implementation (PBI) program.
